

AEROSPACE ENGINEERING, BS

ACCREDITATION

ACCREDITATION

This program will seek accreditation from the Engineering Accreditation Commission of ABET (<https://www.abet.org/>), <http://www.abet.org>. Application for accreditation will be made at the earliest opportunity, in 2028, with an ABET decision in 2029. If accreditation is awarded, it may be retroactively applied to those who graduated beginning December 2027.

PROGRAM EDUCATIONAL OBJECTIVES FOR THE BACHELOR OF SCIENCE IN AEROSPACE ENGINEERING

We recognize that our graduates will choose to use the knowledge and skills that they have acquired during their undergraduate years to pursue a wide variety of career and life goals, and we encourage this diversity of paths. Whatever path our graduates may choose, we expect them to be meeting the following objectives at least three to five years after graduation:

1. They will exhibit a fundamental understanding of broader engineering disciplines with strong skills in aerospace engineering, problem solving, leadership, teamwork, and communication.
2. They will use these skills to contribute to their organizations and communities.
3. They will make thoughtful, well-informed decisions in their career and life.
4. They will demonstrate a continuing commitment to and interest in their own and others' education.
