African Cultural Studies, B.S.

The mission of the Department of African Cultural Studies is to research and teach the languages and expressive cultures of Africa and Africans around the world. This includes work at the graduate and undergraduate levels, and emphasizes the development and application of analytical, linguistic, and methodological tools that enable students to work effectively and imaginatively across regions, languages, cultural forms, methodologies, and disciplines.

Undergraduates study one of six languages offered by the department—Arabic, Hausa, Swahili, Wolof, Yoruba, and Zulu—and combine their language study with popular courses in the humanities, literature, and ethnic studies. The department’s undergraduate courses cover a wide range of topics, including introductory African literature and storytelling, contemporary cinema and music, and social issues ranging from gender and sexuality to whiteness to diasporic internet use.

Majors are encouraged to study abroad in Africa during their undergraduate careers. Study abroad programs sponsored by UW–Madison include semesters or full years in Morocco, Senegal, South Africa, Ghana, and other African nations. Other programs are available through different institutions. See International Academic Programs (http://www.studyabroad.wisc.edu) and visit the Majors Advising Page (https://www.studyabroad.wisc.edu/map_africanlanguages.asp).

For more information, students should feel free to contact the Department of African Cultural Studies (http://african.wisc.edu) or the advisor (https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjfjFEtg.html) at any time.

ADVISORY AND CAREERS

ADVISORY

How does the major in African cultural studies fit into my educational goals?

While there are a wide variety of reasons to visit your major advisor, there seem to be two recurring questions:

1. Can I complete the major during the time I have left at UW?
2. Which classes will be offered in the future?

If you like to plan, seeing your major advisor is very important; it can make the difference between fitting in newly acquired general education requirements and special major requirements, such as the Global HipHop and Social Justice course, and the most fitting courses to your interests. Many students also try to complete more than one major or certificate, and discussing how you might be able to reach this goal is another primary role of your major advisor. Advisors can speak to you about course content, which courses fit best with your interest areas, and what kinds of courses might work best with your learning style—e.g., do you prefer multiple choice or essays? Any and all of these discussions can occur during your advising appointment.

In addition to discussing the major, advisors also know a lot about:

- General Education requirements
- Breadth requirements
• Interpreting university policies and deadlines
• Connecting majors to careers
• Getting involved with campus organizations
• Finding volunteer and/or internship opportunities
• Talking about your challenges and difficulties
• Connecting with tutors
• Picking a study abroad program
• Practicing for interviews
• Talking about graduate school
• Proofreading résumés and cover letters

Ready to meet with the ACS advisor? Make an appointment today (https://calendar.wisc.edu/scheduling-assistant/public/profiles/YjflFElg.html).

CAREERS

While many students have a difficult time believing it, a humanities major such as ours enables students who complete it to consider just about any type of career or educational pursuit. Our coursework builds the critical thinking and communication skills needed to succeed in careers ranging from politics and education to business and law.

Think about what you learn in a classroom setting as well as what you do each day to be a successful student; the skills you develop are equally important in the workplace:

• critical reading, reflection, and analysis
• proper research design and methodology
• expanded world view and exposure to new ideas/ways of thinking
• effective teamwork to advance a common project/purpose
• effective time-management and self-motivation to complete projects independently
• demonstrated writing proficiency in short and long essay format
• discussion and debate strategies
• broader knowledge of career and graduate-study options

One of the more significant skills majors develop is language acquisition. Your study of an African language sets you apart and demonstrates your willingness to explore and expand your understanding of history and culture. In addition, the study of these less commonly taught languages shows discipline and perseverance.

Overall, you will have a wide variety of skills and talents to start you on the path to a rewarding career!
