STUDY ABROAD

Learning in Letters & Science emphasizes discovery, growth, understanding different perspectives, and challenging yourself, which makes studying abroad an excellent fit for many L&S students: studyabroad.wisc.edu (https://studyabroad.wisc.edu/)

As a university with global influence, we have more than 300 study abroad programs (https://studyabroad.wisc.edu/programs/) in over 80 countries. These vary in length, academic focus, teaching format, language requirements, cost, and level of independence. There are many programs to complement every major (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/#L&S) and any year of college (including the final semester)—and all meet UW–Madison's high academic standards. Students admitted into Letters & Science can even choose a short program in the summer before they start college or their whole first year: studyabroad.wisc.edu/launch (http://studyabroad.wisc.edu/launch/). Talk with your academic advisor about how studying abroad might fit with your academic plan.
