# JEWISH STUDIES, B.A.

From history to political science, sociology to music and the arts, Jewish Studies is a vibrant, interdisciplinary program that allows you to explore Jewish civilization from a variety of perspectives. We encourage all students to consider a Jewish Studies major (https://cjs.wisc.edu/major-in-jewish-studies/) or certificate (https://cjs.wisc.edu/certificate-in-jewish-studies/), regardless of your background or previous study.

As a student in Jewish Studies, you will study the intellectual and cultural values of Jews, their religious beliefs and practices, languages, literary creativity, and participation in the larger societies in which they live. You will sharpen your ability to think critically, read closely, and write effectively. And while learning how Jews have lived, survived, and sometimes flourished, you will gain a deeper comprehension of their rich, varied culture and the world they inhabit.

Since Jewish Studies is an interdisciplinary field, many students simultaneously pursue majors or certificates in other departments, including Art, Education, Geography, History, Music, Political Science, Religious Studies, and Sociology. Given the broad history and geography of the Jewish experience, Jewish Studies also pairs well with programs like African Studies, Classical and Near Eastern Studies, European Studies, German/Nordic/Slavic Studies, and Middle Eastern Studies. For the same reason, many of Jewish Studies courses fulfill General Education requirements, including Humanities and Literature, Ethnic Studies, Foreign Language, and Communications Part B. To sample the variety of Jewish Studies offerings, check out our current and recent courses (https://cjs.wisc.edu/courses/).

Building on a strong foundation in the humanities and social sciences, you may go on to pursue a variety of career paths, such as education, library and information sciences, finance and international trade, journalism and mass media, social work, and the nonprofit sector. Our graduates are also well prepared to apply for law school, graduate school, or rabbinical studies.

2. Ability to read Jewish texts closely and to write original, coherent, and compelling arguments that push beyond summary to analysis
3. Knowledge of Jewish civilization, culture, and society in both the past and the present
4. Development, pursuit, and presentation of original research in Jewish studies culminating in a substantive academic paper that utilizes and cites appropriate sources
5. Appreciation for diverse worldviews and value systems, including an understanding of interactions between Jews and non-Jews within the context of minority-majority relationships in Wisconsin, in the United States, and across the globe

FOUR-YEAR PLAN

SAMPLE FOUR-YEAR PLAN

This Sample Four-Year Plan is a tool to assist students and their advisor(s). Students should use it—along with their DARS report, the Degree Planner, and Course Search & Enroll tools—to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests. As students become involved in athletics, honors, research, student organizations, study abroad, volunteer experiences, and/or work, they might adjust the order of their courses to accommodate these experiences. Students will likely revise their own four-year plan several times during college.
