The mission of the Department of Chemistry is to conduct world-class, groundbreaking research in the chemical sciences while offering the highest quality of education to undergraduate students, graduate students, and postdoctoral associates. The department's leadership in research includes the traditional areas of physical, analytical, inorganic, and organic chemistry, and has rapidly evolved to encompass environmental chemistry, chemical biology, biophysical chemistry, soft and hard materials chemistry, and nanotechnology. The Department of Chemistry prides itself on its highly interactive, diverse, and collegial scientific environment. Our emphasis on collaboration connects us to colleagues across campus, around the country, and throughout the world.

The undergraduate chemistry major leads to a bachelor of science or a bachelor of arts degree awarded by the College of Letters & Science. The curriculum provides excellent preparation in chemistry, along with a wide breadth of liberal arts coursework. At the same time, the program provides significant opportunities for students to participate in scientific inquiry, within both laboratory courses and research laboratories. Students from other colleges within the university may pursue the chemistry major as an additional major. When pursuing a chemistry major, the undergraduate student must meet university general education requirements and breadth requirements of their own college, along with the specific requirements for the chemistry major.

The chemistry major provides students with the critical thinking and problem-solving skills necessary to be successful in a wide variety of careers in the chemical industries (e.g., consumer and agricultural products, materials, energy, petroleum, paper, food, etc.), as well as environmental, pharmaceutical, and other health-related sciences. Students are also well-prepared for graduate-level work in chemistry, chemical physics, biochemistry, biophysics, materials chemistry, and other related fields. Students who excel in undergraduate chemistry coursework are often able to obtain funding for their graduate work through teaching or research assistantships and fellowships. Combined with a master's program in secondary education, the major qualifies the student to teach chemistry in secondary schools. Chemistry majors have also been successful in a variety of professional programs where they have studied medicine, pharmacy, dentistry, veterinary medicine, business, or law.

**DEGREES/MAJORS/CERTIFICATES**

- Chemistry, B.A. (http://guide.wisc.edu/undergraduate/letters-science/chemistry/chemistry-ba/)
- Chemistry, B.S. (http://guide.wisc.edu/undergraduate/letters-science/chemistry/chemistry-bs/)

**PEOPLE**

**PROFESSORS**

Berry, John  
Bertram, Timothy  
Blackwell, Helen (associate chair for graduate program)  
Boydston, Andrew  
Brunold, Thomas  
Burstyn, Judith  
Cavagnero, Silvia  
Choi, Kyoungh-Shin  
Coon, Joshua  
Ediger, Mark  
Fredrickson, Daniel  
Garand, Etienne  
Gellman, Samuel  
Goldsmith, Randall  
Hampers, Robert  
Hermans, Ive  
Huang, Xuhui  
Jin, Song  
Landis, Clark (chair)  
McMahon, Robert  
Nathanson, Gilbert (associate chair for research)  
Record, Thomas  
Schmidt, Jordan  
Schomaker, Jennifer  
Schwartz, David  
Sibert, Edwin (associate chair for undergraduate program)  
Smith, Lloyd  
Stahl, Shannon  
Weix, Daniel  
Widicus Weaver, Susanna  
Yethiraj, Arun  
Yoon, Tehshik  
Zanni, Martin

**ASSISTANT PROFESSORS**

Buller, Andrew  
Martell, Jeffrey  
Pazicni, Samuel  
Stowe, Ryan  
Wang, Tina  
Wickens, Zachary  
Yang, Yang

**AFFILIATED PROFESSORS**

Engle, Jonathan (Assistant Professor of Medical Physics)  
Feng, Dawei (Assistant Professor of Materials Science and Engineering)  
Forest, Katrina (Professor of Bacteriology)  
Ge, Ying (Professor of Cell and Regenerative Biology)  
Gilbert, Pupa (Professor of Physics)  
Golden, Jennifer (Assistant Professor of Pharmacy)  
Gong, Sarah (Professor of Biomedical Engineering)  
Gopalan, Padma (Professor of Materials Science and Engineering)  
Hoskins, Aaron (Associate Professor of Biochemistry)  
Li, Lingjun (Professor of Pharmacy)  
Lynn, David (Professor of Chemical and Biological Engineering)  
Mecozzi, Sandro (Professor of Pharmacy)  
Pedersen, Joel (Professor of Soil Science)  
Rienstra, Chad (Professor of Biochemistry)  
Schreier, Marcel (Assistant Professor of Chemical and Biological Engineering)  
Tang, Weiping (Professor of Pharmacy)  
Yesilkoy, Filiz (Assistant Professor of Biomedical Engineering)  
Yu, Lian (Professor of Pharmacy)

**INSTRUCTIONAL STAFF**

Bain, Rachel (Senior Instructional Technology Specialist)  
Block, Stephen (Associate Director General Chemistry Labs)
www.housing.wisc.edu/residencehalls-academics-tutoring.htm), and the College of Engineering Undergraduate Learning Center (ULC) (https://www.engr.wisc.edu/academics/student-services/ulc/). Alpha Chi Sigma (AXE) (http://alphachisigmanauw.com/) is a co-ed professional chemistry fraternity that also offers tutoring. For students seeking more individualized tutoring, the Department of Chemistry maintains a list of private tutors (https://chem.wisc.edu/academic-support/) available for hire.

SCHOLARSHIPS

Through the generosity of alumni and other friends of the department, the Department of Chemistry is able to offer scholarships and summer research support. In 2021, the department awarded over 40 undergraduate scholarships and awards that totaled almost $150,000.

Any student who is a chemistry major or is conducting research with a chemistry faculty member is eligible to apply for the scholarships. An overall GPA of at least 3.000 is required for application; awards are based on both merit and financial need. Students may apply for academic year scholarships and/or summer research support. Learn more about chemistry scholarships (https://chem.wisc.edu/scholarships-fellowships-awards/) and how to apply.
