1

HEALTH AND THE HUMANITIES, CERTIFICATE

LEARNING OUTCOMES

LEARNING OUTCOMES

- Identify major developments in the history of medicine and the medical profession.
- 2. Describe how the meaning of "health" has varied over time and space.
- 3. Comprehend and evaluate complex arguments about politics, values, healthcare, and health in contemporary society.
- 4. Understand health and illness as grounded in personal experience, develop empathy for others' experiences and use creative means to reflect on those experiences.
- 5. Develop sensitivity for what health means among differently positioned people (e.g., with respect to race, class, gender, culture, disability, age).
