THE WISCONSIN EXPERIENCE:
ESSENTIAL LEARNING IN
THE COLLEGE OF LETTERS &
SCIENCE

The three elements of learning—tools, breadth, and depth—work together
to create a broad and rich education in the liberal arts and sciences,
and promote attainment of core areas of essential learning: knowledge
of human cultures and the natural and physical world, intellectual and
practical skills, personal and social responsibility, and integrative and
applied learning. These and countless other experiences comprise the
Letters & Science approach to helping students obtain a distinctive
Wisconsin Experience.
