

# PHYSICS, BS

## RESOURCES AND SCHOLARSHIPS

### RESOURCES AND SCHOLARSHIPS

Students majoring in Physics may be eligible for department scholarships (<https://www.physics.wisc.edu/department/awards/apply/>).

### PHYSICS CLUB

The University Physics Society (<https://win.wisc.edu/organization/physicsclub/>), the Physics Club, is a student organization for people interested in physics and related fields.

The Physics Club organizes events such as seminars, tours, trips, and socials for its members. In the the past, we have taken a field trip to Fermilab and have frequently gathered for social events such as ice skating, movie night, and bowling. Physics Club volunteers also offer free drop-in tutoring to students in introductory physics and astronomy classes. In addition, we maintain subscriptions to science-related magazines such as *Scientific American*, *Astronomy*, and *Physics Today*, which are kept in the club's room located at 2328 Chamberlin Hall.

By joining the Physics Club you'll be meeting many physics majors, who are, in general, really cool people to hang out with. If you are thinking about declaring a Physics major, this is the place to come for helpful advice about taking classes and finding an undergraduate job in the Physics Department. If you join, you can get access to the Physics Club room. Joining also adds you to the club email list, so you can be notified about club-sponsored events.

To join, email [physics.society.wisc@gmail.com](mailto:physics.society.wisc@gmail.com) or drop by Room 2328 Chamberlin Hall and pick up a membership form. Turn in a completed form with your annual dues to a Physics Club officer.

### GENDER MINORITIES AND WOMEN IN PHYSICS

Gender Minorities and Women in Physics (<https://gmawip.physics.wisc.edu/>) (GMAWiP) is a student organization open to undergraduates for the support and promotion of gender minorities and women in physics at UW–Madison. We provide both professional development and support for women and gender minorities in physics at every step in their careers by taking concrete actions through career development, mentorship, fellowship, and outreach.

We also advocate for other minorities in physics, including, but not limited to students of color, students with disability status, low-income students, and LGBT+ students. The group hosts social events aimed at building a sense of community among the members.

### Undergraduate Mentorship Program

GMAWiP provides a mentorship program for undergraduate students. This program connects the undergraduate with a graduate student who will advise and mentor the undergraduate as they work to obtain their degree. If you are interested in this mentorship program or are interested in getting involved with GMAWiP, please contact the undergraduate advisor.

### BLACK AND BROWN IN PHYSICS

Black and Brown in Physics (<https://bbip.physics.wisc.edu/>) (BBiP) is a student organization that creates a safe and welcoming community for the Black and Brown people within physics and physics-adjacent! BBiP hosts general meetings, heritage-based events, and by inviting Black and Brown physicists, educators, and historians to provide talks for both the organization and the Physics department. To get involved, please email [bbipuw@gmail.com](mailto:bbipuw@gmail.com).
