The School of Nursing provides dedicated, professional academic and career advising to undergraduate students in their pre-nursing and nursing years. As one of the smaller schools on campus, the school is able to offer a great deal of personal attention and individualized academic and career advising.

**ACADEMIC ADVISING**
All pre-nursing and nursing students are assigned an academic advisor based on the students last name. Generally speaking, freshmen receive advising in small-group sessions. Once students enter their sophomore year, they move to one-on-one advising appointments with their assigned advisor. Detailed information on the school’s academic advising system and staff (https://students.nursing.wisc.edu/undergraduate-menu/undergraduate-advising/) is available on the school’s student intranet, called the Student Site. Questions about advising can also be directed to the Office of Academic Affairs at 608-263-5202.

**CAREER ADVISING**
The school offers career advising services which provide resources and strategies for career and licensure planning. This includes workshops, career fairs, resume review, prospective employment resources, and licensure information.

**STUDENT SUPPORT**
Information about student support, resources, policies, forms, scholarships, clinicals, compliance, and career & student success in the School of Nursing can be found on the School of Nursing’s Student Website (https://students.nursing.wisc.edu/).
