UNDERGRADUATE GUIDE

The Guide contains information about the many academic programs that make the University of Wisconsin–Madison one of the world’s foremost institutions of higher education.

The Guide is published online only. It is not available in printed format.

The information in the Guide applies to all undergraduate students at the university regardless of their classification (school/college affiliation). Information in the individual school/college sections applies specifically to students who intend to graduate from one of those schools or colleges.

It is important for students to be familiar with all the information that applies to them. Students are strongly encouraged to consult their advisors at least once each semester to be certain they are completing requirements that apply to their degree and major programs.

The Guide is intended to complement other university information including specific materials supplied by schools, colleges, departments, and programs.

For more information about admission expectations, academic preparation, the application process, and important dates and deadlines, contact:

Office of Admission and Recruitment (https://www.admissions.wisc.edu/)
702 West Johnson Street, Suite 1101
Madison, WI 53715-1007
onwisconsin@admissions.wisc.edu
608-262-3961

Schedule a campus tour at VisitBucky (https://www.admissions.wisc.edu/visitbucky/) or call 608-262-3961.

UW–Madison summer brochures and program information are available from the Division of Continuing Studies (http://continuingstudies.wisc.edu/).

All entering students, to protect their interests, should become well acquainted with the regulations regarding student academic and nonacademic misconduct. Information about the Family Educational Rights and Privacy Act of 1974, as amended, is distributed during Wisconsin Welcome and is available at:

Office of the Registrar (https://registrar.wisc.edu/)
333 East Campus Mall #11101
Madison, WI 53715-1384

ACCREDITATION

The University of Wisconsin–Madison is accredited by the Higher Learning Commission (http://www.hlcommission.org/).

230 South Lasalle Street, Suite 7-500
Chicago, IL 60604
Telephone 1-800-621-7440
www.hlcommission.org (http://www.hlcommission.org)

UW–Madison, which was first accredited in 1913, was last accredited in 2019, and will go through a reaccreditation process again in 2028–29.

Student achievement data (https://data.wisc.edu/student-achievement-data/)

SAFE LEARNING AND WORK ENVIRONMENT

Guide to creating and maintaining a Safe Learning and Work Environment at UW–Madison: Responsibilities, Resources, and Reporting Requirements. (https://compliance.wisc.edu/safe-learning-work-guide/)

CONSUMER INFORMATION

UW–Madison is required by law to make available to enrolled and prospective students and their parents’ certain information about its operations. Such information pertains to:

1. general institutional operation
2. financial aid
3. retention and graduation rates
4. annual security & fire report, and
5. athletic program participation rates, financial support, and graduation rates

To meet the requirement, information for the University of Wisconsin–Madison is provided on the Consumer Information webpage (https://financialaid.wisc.edu/consumer-info/).

DISTANCE EDUCATION AUTHORIZATION AND DISCLOSURES

UW–Madison complies with the requirements and standards set by the National Council for State Authorization Reciprocity Agreements (NC-SARA) (https://nc-sara.org/).

Disclosures and information related to distance education at UW–Madison is available on the Distance Education, State Authorization, and Disclosures webpage (https://apir.wisc.edu/institution/distance-education/).

REGISTRATION WITH MINNESOTA OFFICE OF HIGHER EDUCATION

The University of Wisconsin–Madison is a public institution registered as a “Private Institution” with the Minnesota Office of Higher Education pursuant to sections 136A.61 to 136A.71. Registration is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions.

EQUAL OPPORTUNITY, EQUAL ACCESS, AND NON-DISCRIMINATION

The University of Wisconsin–Madison is committed to providing equal opportunity and equal access in compliance with all applicable federal and state laws and regulations and Universities of Wisconsin and university non-discrimination policies and procedures.

POLICIES & PROCEDURES

The Office of Compliance promotes ethical conduct and compliance with all applicable laws, regulations, and UW–Madison policies. UW–Madison’s
non-discrimination statement, contact information for the university’s Equal Opportunity Investigations Administrator, Title IX Coordinator, ADA Coordinator as well as information regarding UW–Madison’s Equal Opportunity Complaint process is available on the Office of Compliance’s website (https://compliance.wisc.edu/eo-complaint/).

DISABILITY RESOURCES
The McBurney Disability Resource Center is an office within the Division of Student Affairs that views disability as an important aspect of the diversity of UW–Madison. The Center is committed to creating an accessible and inclusive educational experience for students, by partnering with students, faculty, and staff to design accessible environments and to provide academic accommodations so that students can engage, explore and participate in the Wisconsin Idea.

The Center works with UW–Madison students with physical, learning, hearing, vision, psychological, health and other disabilities substantially affecting a major life activity (e.g., walking, communicating, learning, seeing, breathing, reading, etc.). Many students have non-apparent disabilities such as depression, anxiety, autism spectrum, learning disabilities, AD/HD and health conditions such as Crohn’s disease or fibromyalgia.

Common accommodations include extended time and/or small group environment for exams, note taking support, sign language interpreting, real time and media captioning, and conversion of printed materials to accessible formats. McBurney Center staff members also collaborate with students and faculty to determine reasonable flexibility with regard to attendance, participation, and deadlines for conditions that fluctuate in severity over the course of enrollment. The Center makes referrals to other campus offices or community resources for non-classroom accommodations related to housing, transportation, personal care needs, and so on. Students should contact the Center upon admission to begin the eligibility for services process. Early notice is essential in order to have accommodations in place prior to the start of the semester. For detailed information, see apply for accommodations (https://mcburney.wisc.edu/apply-for-accommodations/).

The information, policies, and rules contained herein are subject to change. The information in this catalog is current as of June 1, 2024. Later revisions are announced through department or program offices. Students are responsible for knowing current university regulations. University offices can provide current information about possible changes.

ADMISSION

OFFICE OF ADMISSIONS AND RECRUITMENT
Students seeking to earn a bachelor’s degree from the University of Wisconsin–Madison will apply for admission through the Office of Admissions and Recruitment (https://www.admissions.wisc.edu/).

Undergraduate admission is competitive and selective; professional admissions counselors review applications using a holistic process. We focus on academic excellence, reviewing high school and college coursework (when applicable), the courses students have chosen to take, the rigor and breadth of the curriculum, and how the student has performed in their coursework. We also consider written essays, letters of recommendation, extracurricular involvement, and optional test scores.

Our review process is designed to help us identify students who are not only academically stellar but also have qualities such as leadership, concern for humanity, and achievement in the arts, athletics, and other areas. We also seek diversity in personal background and experience for potential contribution to the University of Wisconsin–Madison community.

We invite and encourage all students considering the University of Wisconsin–Madison to join us on campus for a visit (https://apps.admissions.wisc.edu/visitbucky/). There are many options to explore and discover what UW–Madison has in store.

Apply (https://admissions.wisc.edu/how-do-i-apply-to-uw-madison/)
To submit an application for admission, review the application dates and deadlines, as well as the required application materials listed on our website.

Deadlines (https://admissions.wisc.edu/deadlines/)
First-Year Applicants (https://admissions.wisc.edu/apply-as-a-freshman/)
Transfer Applicants (https://admissions.wisc.edu/apply-as-a-transfer/)
Reentry Applicants (https://admissions.wisc.edu/apply-as-a-reentry-student/)
Second Degree Applicants (https://admissions.wisc.edu/apply-as-a-second-degree-student/)

FIRST-YEAR STUDENTS
Competitive first-year applicants have taken advantage of the rigor offered at their high schools and have performed well in challenging courses. Beyond academic excellence, we are looking for students who demonstrate leadership, community engagement, and passion.

Students are considered first-year applicants if they have not yet completed high school (secondary-level education); have not earned a GED/HSED (but will by the time they enroll at UW–Madison); or have not enrolled in a college or university in a degree-granting program since graduating high school or earning a GED/HSED. For more information about admission requirements and expectations of first-year applicants, please see our website (https://admissions.wisc.edu/apply-as-a-freshman/).

TRANSFER STUDENTS
Successful transfer applicants will have a consistently high or upward grade trend; a strong cumulative grade point average; and rigorous coursework in English composition, college-level math, science, social science, humanities, literature, and foreign language. Admission to the university does not guarantee acceptance to an intended major, which is a separate process from undergraduate admission.

Students are considered transfer applicants if they have enrolled in an accredited college or university in a degree-granting program after graduating from high school or earning a GED/HSED. Students must have 24 transferable credits earned at a college or university after high school graduation to be eligible for admission as a transfer applicant. For more information about admission requirements and expectations of transfer
applicants, please see our website (https://admissions.wisc.edu/apply-as-a-transfer/).

Prospective transfer students can begin satisfying UW–Madison general education and degree requirements before transferring. Transfer credit is generally given for college-level courses taken at a degree-granting institution accredited by a CHEA-recognized organization (http://chea.org/). Courses must be similar in nature, level, and content to UW–Madison undergraduate courses and apply to a UW–Madison academic program. Students may wish to consult the UW–Madison Transfer Credit Policy (https://registrar.wisc.edu/transfer-your-credit-to-uw-madison/) for more details.

Transfer Articulation Agreements
A transfer articulation agreement defines accepted transfer courses/credits between two institutions, promoting the successful transfer of completed coursework into UW–Madison required coursework.

UW–Madison currently participates in two transfer articulation agreements with the Wisconsin Technical College System.

1. Universal Undergraduate Credit Transfer Agreement (https://uwmadison.box.com/v/UCTA-articulation/);

REENTERING STUDENTS
Students previously registered at UW–Madison in an undergraduate degree program who wish to resume undergraduate study after an absence of a semester or more are considered reentry students. Reentry students must file an application for readmission but are not subject to the application fee.

To guarantee an early enrollment appointment time, reentry students should submit the complete application by March 1 for the summer or fall term or by November 1 for the spring term. In addition to submitting an application (https://admissions.wisc.edu/apply-as-a-reentry-student/), reentry applicants must submit official transcripts for any work completed elsewhere since last enrolled at UW–Madison, a list of courses in progress (if applicable), and an academic action from the dean’s office if they are in “dropped” or “must obtain permission to continue” status.

SECOND DEGREE STUDENTS
Students who previously completed a bachelor’s degree at the University of Wisconsin–Madison or another institution and are interested in pursuing a second bachelor’s degree are considered a second degree student.

Not all programs are able to accept second degree students. Please be sure to review the school and college-specific requirements (https://admissions.wisc.edu/apply-as-a-second-degree-student/) to determine if the program you are interested in accepts second degree applicants.

All second degree applicants will receive an initial eligibility review to determine if they are considered a second degree-seeking student based on official college transcripts or academic record (for UW–Madison students).

For more information about admission requirements and expectations of second degree applicants, please see our website (https://admissions.wisc.edu/apply-as-a-second-degree-student/).

NONDEGREE UNIVERSITY SPECIAL AND GUEST STUDENTS
Undergraduate students visiting from other universities or recent UW–Madison graduates may desire to enroll at UW–Madison as nondegree University Special and Guest students. Contact the Division of Continuing Studies, Adult Career and Special Student Services (http://www.continuingstudies.wisc.edu/advising/).

PLACEMENT TESTS AND CREDIT BY EXAM

PLACEMENT TESTS AND CREDIT BY EXAM

PLACEMENT TESTS
This is a summary of the Placement by UW System or Departmental Test policy. Click here (https://policy.wisc.edu/library/UW-1014/) to view the official policy in its entirety in the UW–Madison Policy Library.

Each student comes to UW–Madison with a unique set of skills and academic preparation. To assess where each student stands in beginning to meet their General Education Requirements (p. 28), placement tests provide academic advisors with the tools to help determine in which courses students should enroll. Placement tests are required of all incoming first-year and some transfer students. Transfer students may be exempt from placement testing based on their transfer credit. Other exams such as ACT, SAT, SAT II, TOEFL, Advanced Placement (AP), International Baccalaureate (IB), etc. do not satisfy the requirement of placement tests, however, scores on these exams may assist in appropriate course enrollment advising.

UW System Placement tests are developed by faculty and instructional staff from various UW System campuses and led by Testing and Evaluation Services (https://testing.wisc.edu/) (T&E). T&E conducts studies to support the development of these tests and effectively uses the results to place incoming students into appropriate levels of English, math, Spanish, French and German. Outlined below are the situations typical for requiring placement tests.

LANGUAGE PLACEMENT TESTS
A first-year student with previous experience in French, German, or Spanish or a transfer student without transfer credit in the language who plans to enroll in one or more of these languages must take a placement test to qualify for enrollment in courses beyond the entry level language course. If you are interested in taking a course in another language, see the available Departmental Placement Exams below (p. 5). Previous experience may include native speakers and those who have previous coursework in the language.

French

<td>FRENCH 203 (Third Semester French)</td>
</tr>
</tbody>
</table>
MATH PLACEMENT TEST

This test is required for students admitted to undergraduate degree granting programs who is:

1. Admitted as a first-year student; or
2. Admitted as a transfer student and (one of the following):
   a. Has not previously completed the UW System math placement test (Math B if taken after March 2023).
   b. Does not have credit for the UW–Madison direct equivalent of MATH 96, MATH 112, MATH 114, MATH 171, MATH 211, MATH 217, MATH 221, MATH 222, or MATH 234.

It is assumed that a transfer student with one of the direct equivalent MATH courses in progress at the time of admission will successfully complete the course, and will not be required to take the placement test. If the student does not complete or pass the course, the student may be required to take the placement test to demonstrate minimum math proficiency.

Notes:

- To ensure timely completion of the undergraduate degree, students must demonstrate minimum math proficiency before they can enroll in a Quantitative Reasoning Part A course. They should complete Part A of the Quantitative Reasoning requirement by the end of their first year, and must complete Part A before they enroll in Part B.
- Satisfaction of Quantitative Reasoning A from a math course that is transferred in does not automatically exempt students from the UW System math placement test.
- MATH 101 equivalents will be reviewed by the math department.

Math Placement Exam Matrix

For more detailed information on math course sequencing and placement, please see the information available on the Math Department website (https://math.wisc.edu/undergraduate/placement/new-student/). Students should discuss course selection based on math placement test scores with an advisor if they have any questions.

ENGLISH PLACEMENT TESTS

There are two tests used to determine the placement of a student into courses focused on the development of skills needed for success in college-level communications:

1. UW English Placement Test (UWEPT)
2. UW–Madison English as a Second Language Assessment Test (MSNESLAT)

UW English Placement Test (UWEPT)

This test is required for a student admitted to undergraduate degree granting programs who is (one of the following):

1. Admitted as a first-year student and is not required to take the MSNESLAT (see next section); or
2. Admitted as transfer student and is not required to take the MSNESLAT (see next section), and
a. Has not previously completed the UW System English placement test.
b. Has not earned credit for the UW–Madison equivalent of a Communication A (p. 29) course.

<table>
<thead>
<tr>

<tr>
<td>605-850</td>
<td>Communication A requirement satisfied</td>
</tr>
</tbody>
</table>

**Note:** If your score is 0 or between 851-999, please consult your advisor. These scores are not valid, and something was entered incorrectly on your record.

**UW–Madison English as a Second Language Assessment Test (MSNESLAT)**

This test is required for an undergraduate student who must submit a Test of English as a Foreign Language (TOEFL), International English Language Testing System (IELTS) or Duolingo English Test (DET) score for admission to UW-Madison.

First-year applicants educated in non-English speaking countries must submit an official TOEFL, IELTS, or DET score, unless English was the primary language of instruction in all four years of secondary school. Transfer applicants may have the test waived if English was the primary language of instruction in all four years of secondary school or a college-level English composition course was successfully completed at an accredited U.S. institution. This requirement will not be waived for Advanced Placement, International Baccalaureate, or A-level scores.

The MSNESLAT is designed to evaluate English language proficiency, and to place a student into English as a Second Language courses that focus on written and spoken English used in academic contexts. A student who takes the MSNESLAT and obtains a score of less than 99 (Exempt) must satisfy the university’s expectation of college-level English language proficiency by completing ESL 118 Academic Writing II.

**English as a Second Language (ESL)**

<table>
<thead>
<tr>
<th>Score</th>
<th>Placement Into</th>
</tr>
</thead>
<tbody>
<tr>
<td>99</td>
<td>Exempt from ESL 118 and Communication A satisfied</td>

<td>ESL 118 (Academic Writing II)</td>
</tr>
</tbody>
</table>

**Note:** If your score is between 1-98 or 119-999, please consult your advisor. These scores are not valid, and something was entered incorrectly on your record.

**DEPARTMENTAL PLACEMENT TESTS**

Academic units that offer a sequence of courses may choose to propose and offer a placement test to determine which course in the sequence is an appropriate starting point for an individual student.

### RETROACTIVE LANGUAGE CREDIT

Undergraduates at UW–Madison who have gained prior knowledge in a language other than English may be eligible to earn retrocredits. To earn these credits, students must take a language course at UW–Madison above the first-semester level in which they have some proficiency.

The course must be designated with the Foreign Language attribute of 2nd, 3rd, 4th, or 5th semester language course and must be the first course in that language taken by the student after graduating from high school. Students interested in taking one of these courses may need to take a placement test and should consult with a language advisor at SOAR.

To be eligible, students must enroll in the language course prior to earning 30-degree credits and earn a grade of B or better. While transfer credits are included in the 30 credits, credits earned by students admitted as first-year students who took college level credits while in high school are not included. Test and other credit such as AP, CLEP or retrocredits from another language are also not included.

Native speakers of a language are not eligible to earn retro credits in that language.

UW–Madison honors retro credits earned at previous UW institutions if the student enrolled in the course prior to earning 30 credits and earned a grade of B or better.

### ADVANCED PLACEMENT (AP)

UW–Madison offers degree credit for Advanced Placement (https://apcentral.collegeboard.org/courses/) (AP) Exams. AP Higher Level exams must be taken before graduation from high school or obtaining an
equivalent credential. Students who receive credit for a particular course through AP and take the same course at UW–Madison will not receive degree credit twice; however, the grade in the UW–Madison course will be included in the overall grade point average.

### INTERNATIONAL BACCALAUREATE (IB)

UW–Madison offers degree credit for International Baccalaureate Higher Level (https://www.ibo.org/programmes/diploma-programme/) (IB) Exams. IB Higher Level exams must be taken before graduation from high school or obtaining an equivalent credential. Students who receive credit for a particular course through IB and take the same course at UW–Madison will not receive degree credit twice; however, the grade in the UW–Madison course will be included in the overall grade point average.

GCE ADVANCED LEVEL (A-LEVEL)

Advanced Level examinations, or A-Levels, are a key aspect of the British education system, serving as subject-specific qualifications usually taken by students in the final two years of secondary education. These exams are highly regarded internationally for their academic rigor. Credit is earned from A-Level exams with grades ranging from A to E. Advanced Subsidiary (AS) Levels are not eligible for credit.

The UW-Madison credit earned from A-Level exams is determined by faculty review. For A-Level exams not listed in our current table, students can seek credit evaluation. In these instances, they are advised to contact the Office of the Registrar Credit Evaluation Services (https://registrar.wisc.edu/transfer-your-credit-to-uw-madison/) to begin the faculty review process, which may lead to credit approval for these additional exams.

**College- Level Examination Program (CLEP)**

The College-Level Examination Program (CLEP) (https://clep.collegeboard.org/) allows students who have gained college-level knowledge outside the classroom to take examinations for possible college credit. To qualify for credit, students achieve a minimum score of 65 and take their CLEP examination before they accumulate 16 semester credits post-graduation from high school or after obtaining an equivalent credential.

The following credits are excluded from the 16-credit limit for CLEP eligibility:

- credits earned from dual enrollment courses taken in high school.
- test credits such as those from Advanced Placement (AP), International Baccalaureate (IB) and Advanced Levels.
- Credits in-progress at the time the CLEP exam is taken.

**College-Level Examination Program (CLEP Credit Table)**

**CREDIT BY EXAM**

This is a summary of the Credit by Exam policy. Click here (https://policy.wisc.edu/library/UW-1005/) to view the official policy in its entirety in the UW-Madison Policy Library.

Students may acquire knowledge, skills, and competencies through a variety of experiences that are academic in nature but may not necessarily correspond to a setting in which UW–Madison awards traditional credit. Credit by examination is one opportunity for students to demonstrate mastery of material that is equivalent to what would be learned in a specific UW–Madison course.

Departments must propose and have approved the exams they offer. Listed below are the courses that have been approved for credit by exam.

**Animal and Dairy Science**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AN SCI/DY SCI 101</td>
<td>Introduction to Animal Sciences</td>
<td>3</td>
</tr>
</tbody>
</table>

For more information on how to earn credit by exam for this course, see the exam information (https://andysci.wisc.edu/animal-science-dairy-science-101-credit-by-exam/).

**Chemistry**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 105</td>
<td>General Chemistry I</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 106</td>
<td>General Chemistry II</td>
<td>4</td>
</tr>
</tbody>
</table>

For more information on how to earn credit by exam for these courses, see the exam information (https://chem.wisc.edu/chemistry-credit-by-examination/).

1. CHEM 101 General Chemistry I Laboratory + CHEM 105 General Chemistry I = CHEM 103 General Chemistry I
2. CHEM 102 General Chemistry II Laboratory + CHEM 106 General Chemistry II = CHEM 104 General Chemistry II

**Educational Psychology**

ADVISORY

At UW–Madison advising is a partnership between students and the network of advisors they build during their time here. Advising is one of the most essential resources available to students and can play a pivotal role in the college experience and beyond. Advisors can help students get the most out of their Wisconsin Experience by helping them make well-informed decisions, sharing strategies for success, supporting them as they encounter challenges, connecting them to resources, and providing information about campus policies and procedures.

There are many reasons to see an advisor and advising is not limited to certain subjects or specific months of the year. Here are some of the many topics that advisors can help students with:

- Setting academic, career, and life goals
- Connecting a major to a career
- Creating a graduation timeline plan
- Selecting courses and fulfilling degree requirements
- Connecting with tutors
- Getting involved with campus organizations
- Practicing for job interviews
- Choosing a study abroad program
- Finding an internship
- Researching volunteer opportunities
- Understanding university policies and deadlines
- Talking about graduate school
- Proofreading resumes and cover letters

To find contact information for advisors, including the assigned advisor, see this link (https://advising.wisc.edu/find-an-advisor/).

CROSS-COLLEGE ADVISING SERVICE (CCAS)
The Cross-College Advising Service (CCAS) (https://ccas.wisc.edu/) is a campus-wide advising office for undergraduate students who are in the process of deciding on a major and want to explore the many academic opportunities on campus. CCAS also assists students who are considering changing majors or who have not been admitted to limited-enrollment programs and are evaluating other options. CCAS advisors are knowledgeable about all the programs and majors offered by the eight undergraduate schools and colleges on campus. Each year at SOAR (Student Orientation, Advising, and Registration) (http://soar.wisc.edu/), nearly 2000 students in the entering class self-identify as "undecided/exploring" and are assigned to CCAS advisors.

In addition to the main CCAS office in Ingraham Hall, CCAS has residence hall advising offices in Chadbourne Residential College, Witte Hall, Sellery Hall, Ogg Hall, and Dejope Hall. The Dejope office is available to all students in Lakeshore-area residence halls.

CAREER PLANNING
Career advisors and career planning opportunities at UW-Madison are available to help students answer the question, "Who am I? Who do I want to become? Where am I going and how do I get there?" Career planning can be a multi-year process that includes self-assessment and reflection, exploring academic and career options, gaining experience in areas of interest, and ultimately conducting a job or graduate school search.

Each school or college within UW-Madison has a dedicated career services office and students are encouraged to work with a career advisor during their time at the University. Students who are exploring a variety of major and career paths can work with the Career Exploration Center. Links to each of the campus career services offices are available below and online at www.careers.wisc.edu (https://www.careers.wisc.edu/).

Students can work with career services staff to engage in a wide variety of career planning activities, including: individual or group advising, educational workshops, job shadowing, informational interviewing, mock interviews, internships, career fairs, and more.

HANDSHAKE
Students can find jobs and internships, and connect to campus career centers and events through their free UW–Madison Handshake account. Handshake is available through the MyUW dashboard, and students can activate their free Handshake account now by visiting https://wisc.joinhandshake.com/.

CAREER ADVISING
Students can meet with individual career advisors throughout their undergraduate experience as they explore and navigate their career plans. Career advisors can help students with a variety of areas, including:

- Career exploration and assessment
- Build skills and relevant experiences
- Internship and job search strategies
- How to network
- Connecting with alumni and employers
- Interview preparation and practice
- Job offers and negotiation
- Résumé/cover letter reviews

CAREER EXPLORATION CENTER (CEC)
The Career Exploration Center (CEC) (https://cec.ccas.wisc.edu/) supports undergraduate students who are undecided about their career and/or academic goals. They assist students in gathering information, personal insight, and experiences that help them explore their options and provide direction in planning the next steps in their career journey.

PRE-PROFESSIONAL STUDY
At UW-Madison, students interested in pursuing graduate-level health professions and law school have access to specialized Pre-Professional Advising resources. Pre-Professional Advising is made up of two co-located and highly collaborative career advising units: The Center for Pre-Health Advising and the Center for Pre-Law Advising. The units share a joint mission of helping to increase access, equity, and diversity within the fields of health and law.

CENTER FOR PRE-HEALTH ADVISING
prehealth.wisc.edu (https://prehealth.wisc.edu)

Pre-Health—e.g., Pre-Med/DO, Pre-PA, Pre-OT, Pre-Vet MD—is not an undergraduate major, it is an intention. Students should major in areas of true interest, meet regularly with their academic advisor(s), and proactively utilize the resources offered by the Center for Pre-Health Advising (CPHA) if they are considering further schooling and careers in the following areas: medicine, dentistry, occupational therapy, physical therapy, physician assistant, public health, chiropractic, optometry, veterinary medicine, or other graduate-level health programs. Students interested in PharmD are strongly encouraged to access advising through the UW School of Pharmacy, due to the many unique aspects of pursuing this degree.

CENTER FOR PRE-LAW ADVISING
prelaw.wisc.edu (https://prelaw.wisc.edu)

Pre-law is not an undergraduate major, it is an intention. Students should major in areas of true interest, meet regularly with their academic advisor(s), and proactively utilize the resources offered by the Center for Pre-Law Advising (CPLA) for support in considering, preparing for, and applying to law school.

STUDY ABROAD ADVISING

Several schools and colleges have their own study abroad advising locations and offer information about study abroad programs that are directly related to certain areas of study.

- College of Agricultural and Life Sciences
- College of Engineering
- University of Wisconsin Law School
- School of Business

INTERNATIONAL ACADEMIC PROGRAMS (IAP)
studyabroad.wisc.edu (http://studyabroad.wisc.edu)
International Academic Programs (IAP) offers more than 200 programs on six continents for students of all majors. Courses through IAP programs can count toward degree requirements, allowing students to stay on track for graduation. Scholarships, grants, and financial aid are available.

INTERNATIONAL INTERNSHIPS
internships.international.wisc.edu (http://internships.international.wisc.edu)

The International Internship Program (IIP) works with students of all majors looking to gain experience and explore careers through international internships. Students can intern with organizations around the world. Advising, academic credits, and scholarships are available.

NON-APPROVED STUDY ABROAD
Students considering participating in a study abroad program sponsored by a university other than UW–Madison should review this page: https://studyabroad.wisc.edu/nonapproved/ for more information.

GRADUATING IN FOUR YEARS OR FEWER
UW–Madison encourages, supports, and expects students to work with academic advisors to create, maintain, and plan a graduation timeline. Students should consult with their assigned academic advisor(s) before each enrollment period, and more as needed. Additionally, each major in the Guide includes a four-year plan to help students map out a path to graduation, with help from advisor(s).

To ensure a timely graduation, students should discuss the following topics with their advisor:

- Exploring interests while making progress on degree requirements
- Setting and achieving academic and career goals
- Academic challenges and connecting to resources that support academic success
- Procedures and requirements for declaring a major
- Using the Degree Audit Reporting System (DARS) (https://registrar.wisc.edu/dars/) to check progress toward the degree
- Any changes to a declared major, as well as alternative plans if applying to a competitive limited-enrollment program
- A strategic course schedule to stay on track for graduation

DEGREE AUDIT REPORTING SYSTEM (DARS)

A Degree Audit Reporting System (DARS) (https://registrar.wisc.edu/dars/) report is an automated summary of a student’s degree progress. All schools and colleges at UW–Madison use DARS to audit the progress of most undergraduate degree programs and certificates.

DARS reports indicate which requirements are completed, which are complete with in-progress and planned courses, and which remain unsatisfied. The report may specify courses that meet unsatisfied requirements. For most undergraduate programs, DARS is the tool used to determine completion of the program and/or eligibility to graduate.

Students can request and review their DARS in the Student Center via MyUW, or through the Course Search & Enroll app, and should contact their assigned advisor(s) for help reading and interpreting their DARS report.

OFFICER EDUCATION

The Reserve Officers Training Corps (ROTC) prepares students to become commissioned officers in the U.S. Air Force, Army, Navy, or Marines, as well as for civilian careers. Students may be enrolled in ROTC while pursuing a degree at UW–Madison. ROTC courses are open to all undergraduates who have met the prerequisites. The number of ROTC credits that count toward a UW–Madison degree can vary by department and school or college. Prospective and registered students should contact the military program offices listed in this section of the catalog for information about regular course offerings, summer camp programs, and scholarships.

AIR FORCE ROTC—AEROSPACE STUDIES

The Air Force ROTC (AFROTC) program is the primary path available to enter the U.S. Air Force as an officer. Students enroll in the AFROTC program while working toward the bachelor’s degree in any major they choose. They attend an aerospace studies class each semester, a hands-on leadership laboratory, and weekly physical fitness sessions, while learning about how the Air Force works and deciding which job fields match their interests. Upon graduating, they enter active duty service as second lieutenants, in leadership and management roles in the Air Force.

Most career fields have an active-duty commitment of four years after college. If students choose to separate from the Air Force at that time, they can pursue other careers with experience and the distinction of “military officer” on their resumes.

AFROTC is designed for students with three or more years remaining until graduation. To receive an officer’s commission, AFROTC cadets must complete all necessary requirements for a degree as well as courses specified by the Air Force. Courses are often taken for academic credit as part of a student’s electives. The amount of credit given toward a degree for AFROTC academic work is determined by the student’s school or college, and major department.

Required Courses for Air Force ROTC/Aerospace Studies

A F AERO 402 Leadership Responsibilities & Commissioning Preparation 3

Cadets must enroll in A F AERO 501 Leadership Laboratory I every Fall semester and A F AERO 502 Leadership Laboratory II every Spring semester, in addition to their lecture courses, for a total of 8 credit hours.

Scholarships are available to qualified applicants. Scholarships may provide full tuition, laboratory and incidental fees, and reimbursement for textbooks. In addition, scholarship cadets receive a nontaxable allowance ranging from $300 to $500 per month, depending on academic/AFROTC year. Juniors and seniors automatically receive $450 and $500, respectively.

For Participating Students:
Participating students are those who are registered in AF AERO courses but do not seek a commission. Participating students are not cadets, and the following apply:

- Must create a WINGS account; however, students are not required to complete the application for AFROTC membership. Accounts can be created here: https://wings.holmcenter.com/psp/hcp/LANDING/PORT_HCP/c/W_ROTCW_PTL_PRESCREEN.GBL
- May enroll in AFROTC classes for academic course credit only.
- Will not be issued uniforms.
- Will not be included in Detachment Commander’s Ranking.
- Are ineligible to compete in any selection program.
- Cannot compete for an Enrollment Allocation (EA), contract, or commission.

All AFROTC courses are open to all students regardless of membership in the program. Students are invited to take one of the program’s courses to determine if AFROTC is right for them with no obligation to join. For more information, please contact the Recruiting Officer at 608-262-3440 or 608-265-4812; afrotc@mailplus.wisc.edu.

MILITARY SCIENCE—ARMY ROTC
The Army Reserve Officers’ Training Corps (ROTC) is the nation’s largest leadership and management-development training program. It offers the opportunity to earn a commission as a Second Lieutenant for Active Duty, Army Reserve, or Army National Guard while pursuing an academic degree. It enables young men and women to prepare themselves to be leaders in the Army or the civilian career field of their choice. The traditional four-year Army ROTC Program is divided into a two-year Basic Course and a two-year Advanced Course. A non-contracted student enrolled in the Basic Course does not incur a military service obligation. All Military Science classes are taught in person on campus.

Basic Course
This instruction introduces the student to fundamental military and leadership subjects. It is normally taken over four successive semesters, but may be completed in as few as two semesters. Students should discuss available options with the Scholarship & Enrollment Officer before registering for courses if they have fewer than four semesters to complete the Basic Course.

The regular curriculum consists of a lecture and lab each semester. Freshmen are encouraged to take our class and lab with no military obligation. Students can enroll in a lecture without enrolling in the lab, but cannot enroll in a lab without the corresponding lecture. Labs are intended to provide practical leadership experience and military skills training such as map reading, land navigation, field training, and rifle marksmanship. Additionally, students who start in the Aerospace Studies or Naval Science programs can switch to Military Science and continue on toward graduation with no penalty.

Advanced Course
Students who have completed the Basic Course or an equivalency (see Two-Year Program) and have passed all enrollment eligibility criteria continue on into the Advanced Course. This course consists of the following lectures, leadership labs, a separate military history course, physical fitness training sessions, and a four-week paid leadership capstone (Advance Camp) at Fort Knox, Ky. Students normally attend Advance Camp between their junior and senior years of Military Science. During labs and physical training sessions students are provided practical leadership opportunities to prepare them for Advance Camp and their future military careers. Students must complete all components of this course to earn a commission.

Two-Year Program
Students who are veterans, members of the Army National Guard/Army Reserve, or who have participated in the Junior Reserve Officers’ Training Corps Program in high school may qualify for direct entry into the Advanced Course. Students who did not complete the ROTC Basic Course (see above), to include graduate and doctoral students, but have two years of academic study remaining may be eligible to attend Basic Camp. This option compresses the Basic Course curriculum into a paid four-week summer leadership professional development course held at Fort Knox, Ky prior to starting the Advanced Course. Students who believe they qualify for this program should consult with the Scholarship & Enrollment Officer for more information.

Scholarships
Qualified students may compete for Army ROTC scholarships ranging from two to three years in duration. High school students can apply for a four year scholarship during their senior year of high school. Students must be enrolled and participating in Army ROTC to be eligible for scholarships. Scholarships are merit based and pay full tuition & fees (both in and out-of-state) or room and board (capped at $6,000/semester) but
not both, $600/semester for textbooks and laboratory expenses, and a
tax fee subsistence stipend of $420 for each month of the regular school
year. Interested students should consult with the Scholarship & Enroll-
ment Officer for more detailed information concerning the scholarship eligibility
requirements. For additional information about Army ROTC, students may
contact Josh Beyerl in the Department of Military Science, 1910 Linden
Drive, 608-262-3411, armyrotc@mailplus.wisc.edu.

NAVAL SCIENCE—NAVAL ROTC

Mission
The Naval ROTC Program was established to develop future officers
mentally, morally and physically and to instill in them the highest ideals
of duty, and loyalty, and with the core values of honor, courage and
commitment in order to commission college graduates as Naval officers
who possess a basic professional background, are motivated toward
careers in the Naval service, and have a potential for future development
in mind and character so as to assume the highest responsibilities of
command, citizenship and government.

Program Description
The purpose of the Naval ROTC Program is to educate and train qualified
young men and women for service as commissioned officers in the Navy’s
unrestricted line, and the Marine Corps. As the largest single source of
Navy and Marine Corps officers, the Naval ROTC Scholarship Program
plays an important role in preparing mature young men and women for
leadership and management positions in an increasingly technical Navy
and Marine Corps.

Selected applicants for the four-year Naval ROTC Scholarship Program
are awarded scholarships through a highly competitive national selection
process, and receive full tuition, books stipend, educational fees and other
financial benefits. Upon graduation, midshipmen are commissioned as
active duty officers in the Navy’s unrestricted line or the Marine Corps.

The four-year Naval ROTC Scholarship Program is available to qualified
students who graduate from high school before August 1 of the year
they intend to start college, and have earned less than 30 credit hours of
college-level courses.

Students may affiliate with the Naval ROTC program, with the approval
of the Professor of Naval Science, as College Program midshipmen, but
receive none of the monetary benefits of scholarship students. College
program midshipmen may apply and compete for 3-, 2-, or 1-year NROTC
scholarships in each of their freshman, sophomore and junior academic
years.

Students selected for the Navy ROTC Scholarship Program make their
own arrangements for college enrollment and room and board, and take
the normal course load required by the college or university for degree
completion.

Upon graduation, midshipmen who complete all academic requirements
in the Navy ROTC program are commissioned as an Ensign in the Navy
or a 2nd Lieutenant in the Marine Corps and will be required to serve
a minimum of five years of active military service. (Additional service
requirements may apply for specific service assignments; e.g., pilot,
nuclear power officer.)

Program Requirements
• Complete all requirements for a bachelor’s degree.
• Complete specified Naval Science courses:

<table>

Marine Option

• In addition (or concurrent) to prescribed undergraduate degree
and Naval Science course load, midshipmen must also satisfy these
academic requirements:
  • Calculus (two semesters, by end of sophomore year). Not required
    for Marine option students.
  • Physics (two-semesters of calculus-based physics, by end of
    junior year). Not required for Marine option students.
  • English grammar and composition (two-semesters).
  • National Security Policy/American Military Affairs (one-semester).
  • World Culture/Regional Studies (one-semester; certain countries
    or cultures do not satisfy). Not required for Marine option
    students.

• Maintain a minimum, cumulative 2.5 GPA.

• Register for, and attend a one credit Naval Science leadership lab each
  semester (NAV SCI 175 Introductory Naval Laboratory I, NAV SCI 176
  Introductory Naval Laboratory II, NAV SCI 275 Elementary
  Naval Laboratory I, NAV SCI 276 Elementary Naval Laboratory II,
  NAV SCI 375 Intermediate Naval Laboratory I, NAV SCI 376
  Intermediate Naval Laboratory II, NAV SCI 475 Advanced Naval
  Laboratory I, NAV SCI 476 Advanced Naval Laboratory II)

• Participate in a 4-6-week training period each summer

Summer Training Requirements

A significant portion of a midshipman’s professional training during their
four-year curriculum is received during summer training.

Navy option midshipmen attend summer training, to include Career
Orientation and Training for Midshipmen (CORTRAMID) for rising
sophomores, and Fleet Exposure Cruises for rising juniors and seniors.

Marine Corps option summer training includes Career Orientation and
Training for Midshipmen (CORTRAMID) for rising sophomores, and
Fleet Exposure Cruises for rising juniors. All rising senior Marine option
midshipmen attend the 6-week Marine Corps Officer Candidates School
in Quantico, VA.

Midshipmen must ultimately make decisions as to which warfare area
they will request to be commissioned into; CORTRAMID and the various
summer training programs are designed to instill awareness of these areas
and provide midshipmen with the background necessary to make informed decisions regarding their career choice. Midshipmen select their order of preference of available warfare communities and are ultimately assigned based on their class rank and the needs of the Navy and Marine Corps.

Possible Summer Training Assignments

- **CORTRAMID**: Midshipmen assigned to this training will travel to a Fleet concentration area on either the East or West coast and spend a week with each of the following warfare communities: surface ship, submarine, aviation, and Marine Corps.
- **Nuclear Power**: Midshipmen can be assigned to a nuclear submarine or aircraft carrier.
- **Ashore Aviation Option**: Selected, qualified midshipmen train with a shore-based Navy aviation squadron, including flight time if feasible.
- **Surface Warfare**: Midshipmen can be assigned to a Navy ship in the United States or in overseas ports.
- **Fleet Marine Force Month**: Marine option midshipmen can be assigned to a unit on the East or West coast, where they will closely shadow officers and enlisted Marines in their day-to-day training.

**PEOPLE**

**Air Force ROTC—Aerospace Studies**: Lieutenant Colonel Scott Gross, Professor of Aerospace Studies/Detachment Commander; Major Jeremy Ware, Assistant Professor of Aerospace Studies/Operations Flight Commander; Captain Kaitlynn Williams, Assistant Professor of Aerospace Studies/Recruiting Officer.

**Military Science—Army ROTC**: Professor Lieutenant Colonel Cheney; Assistant Professor Captain Schwartz, Assistant Professor; Assistant Professor Captain Ali; Assistant Professor Captain Schultz; Enrollment Officer: Josh Beyerl

**Naval Science—** Professor, CAPT Barnett; Associate Professor, CDR Mascotti; Assistant Professors LT Hippe, LT Fox, and Marine Capt. Hoffman. The assistant professors act as undergraduate advisors and may be contacted through the department office.

**Wisconsin Experience**

The Wisconsin Experience describes how students develop and integrate these core values across their educational experience.

Through the Wisconsin Experience, our students will engage in the following areas of intellectual and personal growth.

**Empathy and Humility**

- Develop and demonstrate cultural understanding of self and others
- Engage locally, nationally, and globally in a respectful and civil manner
- Appreciate and celebrate one another’s abilities, views, and accomplishments

**Relentless Curiosity**

- Actively learn with expert instructors, scholars, and peers
- Engage in creative inquiry, scholarship, and research
- Develop resilience, and foster courage in life and learning

**Intellectual Confidence**

- Develop competence, depth, and expertise in a field of study
- Integrate ideas and synthesize knowledge across multiple contexts
- Exercise critical thinking and effective communication

**Purposeful Action**

- Apply knowledge and skills to solve problems
- Engage in public service, partner with others, and contribute to community
- Lead for positive change

**STUDENT LEARNING AT UW–MADISON**

Student engagement and activism are deeply rooted in UW–Madison’s rich history of academic and research excellence. Occasionally, students are expected to help the university better understand and improve student learning by participating in evaluative activities, which include surveys, focus groups, and questionnaires, and by providing examples of their work through presentations, posters, demonstrations, and writing samples. We rely on the student perspective when assessing the effectiveness of academic and co-curricular programs. By participating, students help improve their own educational and related experiences and contribute to better educational experiences for future students.

**ACADEMIC ENRICHMENT AND HONORS PROGRAMS**

UW–Madison offers students many ways to enrich their academic program, regardless of the major field of study they choose to pursue. Engaging in research, studying abroad, being part of learning communities, participating in university honors, becoming a student leader, engaging in service learning—these are all vital components that enhance and strengthen classroom learning. This partnership between in- and out-of-classroom learning form the foundation of the Wisconsin Experience. The university encourages students to take advantage of opportunities to integrate their learning experiences.

**Honors Programs**

Honors programs, which vary slightly among the schools and colleges, are designed for students who wish to undertake work that is more intensive than regular coursework. High grade point averages are required to maintain honors student standing. Students should refer to Honors Programs (https://teachlearnprovost.wisc.edu/honors-programs/) for
more information including specific school or college programs or to contact an honors advisor.

**Undergraduate Research Opportunities**

One of the most exciting things in life is to discover something new. UW–Madison provides unique opportunities to learn from and work with some of the world’s leading researchers and scholars. Options range from assisting with professors’ ongoing research to designing and directing one’s own projects. For many examples, see Undergraduate Research Opportunities (https://teachlearn.provost.wisc.edu/undergraduate-research/). The Undergraduate Research Scholars Program (http://urs.ls.wisc.edu/) is one opportunity available in the first or second year of study. Students may cap off their undergraduate degree with a senior thesis or senior honors thesis and are encouraged to present their work at the Undergraduate Symposium. For program descriptions, see Undergraduate Symposium (https://ugradsymposium.wisc.edu/). For a sampling of the many grants and awards available to support and honor this work, visit the Undergraduate Academic Awards Office (https://awards.advising.wisc.edu/).

**Community-Based Learning**

Undergraduates have access to more than 100 community-based learning courses each year. These courses emphasize hands-on experiences that address real-world issues as a venue for educational growth. More information on community-based learning is available at the Morgridge Center for Public Service (http://morgridge.wisc.edu/).

**Learning Communities**

UW–Madison’s rich tradition of supporting learning communities (https://www.housing.wisc.edu/residence-halls/learning-communities/) means that the traditional classroom is not the only place where students learn. Students may choose to participate in any of the many residential and nonresidential learning communities, where students, faculty, and staff work together as both learners and teachers to pursue their academic interests. For more information about residential options, refer to University Housing’s learning communities (https://www.housing.wisc.edu/residence-halls/learning-communities/).

**STUDY ABROAD PROGRAMS**

Studying abroad extends the boundaries of the classroom to the world. It is an exciting way for students to complement and enhance their on-campus learning while earning meaningful credit toward the major and degree. Each year UW–Madison sends more than 2,000 students on study abroad programs around the globe, including domestic study away options within the United States.

International Academic Programs (IAP) (https://www.studyabroad.wisc.edu/) serves as the central study abroad office on campus, offering more than 200 programs in over 60 countries around the world. IAP program offerings, available to all majors for students at all levels, range from short-term faculty-led opportunities to intensive language study, internships, a semester or a year at a university abroad, service-learning, and programs with special themes. Students can visit the Study Abroad Resource Center, 301 Red Gym, to meet with advisors who can help students prepare and research study abroad options.

Additionally, in partnership with IAP, the College of Agricultural and Life Sciences, the College of Engineering, and the School of Business offer programs geared specifically for their academic disciplines. All approved UW–Madison programs share policies, procedures, and best practices, and are featured on the UW Study Abroad Program Search (https://studyabroad.wisc.edu/programs/).

**The Value of Study Abroad**

Employers are increasingly looking for workers who not only have technical knowledge, but also “soft skills” such as critical thinking, problem solving, time management, and communication skills deemed necessary for success in a global workforce. Study abroad is one of the best ways students can acquire global skills and stand out to potential employers. Study abroad alumni have better job prospects. Based on a survey conducted by IES Abroad (http://thepienews.com/news/us-study-abroad-alumni-have-better-job-prospects/), 90 percent of study abroad alumni found their first job within six months of graduation. In addition to being able to experience new customs, cultures, interests, and food, alumni have reported that study abroad increased their confidence and had a lasting impact on their worldview (https://www.iesabroad.org/study-abroad/benefits/alumni-survey-results/).

Regardless of major, students will find that study abroad has much to offer. The variety of program sites and durations (semester, spring break, summer, winter, year) allow students to select programs based on individual academic interests and personal goals and objectives.

**Access and Meaningful Credit for All Majors**

In general, credits earned abroad can count toward fulfilling (https://studyabroad.wisc.edu/academics/) college and major requirements in any UW–Madison school or college. Seniors in most schools and colleges who complete their major and degree requirements while abroad on a UW–Madison program can graduate at the end of their study abroad program.

Each study program has its own eligibility requirements. Students are encouraged to talk with their academic advisors early in their academic careers about how study abroad can fit into their academic plans and future career goals. We are also working with departments to create Major Advising Pages (https://studyabroad.wisc.edu/academics/major-advising-pages-maps/) to highlight programs that work best for students’ degree plans.

**Costs and Funding**

Students who are thinking about studying abroad or have already decided to do so may be concerned about how they will fund the experience. We frequently hear from students that the program cost is a primary factor in deciding whether they are able to pursue studying abroad. Instead of tuition, students pay a program fee to cover the actual costs of the experience, which is unique to each program. Programs vary widely in cost, so it is likely that we have a program for every budget. Sometimes studying abroad is no more expensive than studying on campus, and other times the cost can be higher. We work with students to create funding (https://studyabroad.wisc.edu/funding/) plans for their time abroad.

Students who study abroad in UW–Madison-sponsored programs may be eligible to use federal financial aid toward the costs of the program. Students should meet with the UW–Madison Office of Student Financial Aid to discuss eligibility requirements. In addition, students can apply for scholarships (https://www.studyabroad.wisc.edu/scholarships.html) specifically designated for use with study abroad programs. These include UW–Madison, national, and international scholarship opportunities. Students can also use most campus and academic department scholarships for UW–Madison-sponsored study abroad programs.

**Diversity and Inclusion**

Study Abroad staff are committed to providing quality study abroad and domestic study away programs for every UW–Madison student. We work strategically to identify, address, and remove barriers that may prevent participation and to provide a welcoming and inclusive environment for students. Our team actively engages with students, faculty, and staff from
diverse backgrounds and prioritizes the continuous development of our knowledge and cultural competence. We also recognize the importance of increasing access to study abroad for historically underrepresented student populations. We are committed to diversity and inclusion so that every student can engage with and understand their identity through a new lens and continue to develop and make progress on their personal, professional, and academic goals.

REQUIREMENTS FOR UNDERGRADUATE DEGREES

This is a summary of the Requirements for Undergraduate Degrees policy. Click here (https://policy.wisc.edu/library/UW-1060/) to view the official policy in its entirety in the UW-Madison Policy Library.

The University of Wisconsin–Madison sets minimum standards that must be met by all students pursuing an undergraduate degree. The information in the following paragraphs provides general information about study at UW–Madison. Requirements may vary among the schools and colleges, and for specific programs. Students should learn about and understand the specific requirements for their program of study.

TOTAL DEGREE CREDITS

To receive a bachelor’s degree from UW–Madison, students must earn a minimum of 120 degree credits (which includes AP, IB and other test credit, transfer credit, and retroactive credit). Requirements for some programs may exceed 120 degree credits. Students should consult with their college or department advisor for information on specific credit requirements. Undergraduate Majors (p. 13).

RESIDENCE CREDIT

Degree candidates are required to earn a minimum of 30 credits in residence at UW–Madison. “In residence” means on the UW–Madison campus with an undergraduate degree classification. “In residence” credit also includes UW–Madison courses offered in distance or online formats, as credits earned in UW–Madison Study Abroad/Study Away programs. Some schools and colleges may have additional requirements concerning courses taken in residence; students should refer to the specific school or college section of the Guide and consult with an advisor.

UNDERGRADUATE MAJOR DECLARATION

This is a summary of the Undergraduate Major Declaration policy. Click here (https://policy.wisc.edu/library/UW-1009/) to view the official policy in its entirety in the UW-Madison Policy Library.

Undergraduate degrees at UW–Madison presume that students are completing a program of study that consists of a degree program that combines the requirements for the degree with focused study in a discipline, or that combines school or collegewide requirements with an undergraduate major in which they pursue focused study. All undergraduates are expected to have declared or to have been admitted to their focused area of study by the end of the semester in which they have accumulated 86 credits. Students who have not met this expectation may be prevented from enrolling in future terms until they meet with their advisor. Some schools and colleges have additional requirements governing when majors may be declared; students should refer to the specific school or college section of the Guide and consult with an advisor about declaring their major.

ACADEMIC PROBATION

Undergraduate students must maintain the minimum academic thresholds, including the minimum grade point average specified by the school, college, or academic program to remain in good academic standing. Students whose academic performance drops below these minimum thresholds will be placed on academic probation.

GENERAL EDUCATION REQUIREMENTS

This is a summary of the General Education Requirements policy. Click here (https://policy.wisc.edu/library/UW-1059/) to view the official policy in its entirety in the UW-Madison Policy Library.

All undergraduate students at UW–Madison must complete the university-wide General Education Requirements, which are designed to convey the essential core of an undergraduate education. This core establishes a foundation for living a productive life, being a citizen of the world, appreciating aesthetic values, and engaging in lifelong learning in a continually changing world. These requirements provide for breadth across the humanities and arts, social studies, and natural sciences; competence in communication, critical thinking, and analytical skills necessary for success in college and beyond; and investigation of the issues raised by living in a culturally diverse society. This core is intended to provide students with intellectual and practical skills, basic knowledge of human cultures and the physical world, strategies for understanding these topics, and tools intended to contribute to their sense of personal and social responsibility. General Education complements the work students do in their majors and degrees. Together, these requirements help students learn what they need to know not just for making a living, but also for making a life.

Completing the General Education Requirements is an important part of achieving these competencies, and to do so, students choose from many courses in communication, ethnic studies, quantitative reasoning, and breadth of study across disciplines in the natural sciences, humanities, literature, and arts, and social and behavioral sciences.

Each school and college may choose to allow General Education courses to count toward other degree and/or major requirements. Students should always check with their advisors to discuss any additional degree requirements and determine if students are required to take specific General Education courses or to complete the requirements in a particular order. Students should review their Degree Audit (DARS) report to see how they are progressing toward fulfilling the General Education requirements. Please refer to this website (https://gened.wisc.edu/) for more information about the requirements.

The university-wide General Education requirements are:

Breadth, 13–15 Credits, Distributed Over Three Areas

All students must complete 13–15 credits of coursework intended to provide a breadth of experience across the major modes of academic inquiry. This requirement encourages students to adopt a broad intellectual perspective, to examine the world through investigative, critical, and creative strategies practiced in the natural (computational, biological, and physical) sciences, social and behavioral sciences, as well as in the arts and humanities.

Learning Outcomes

Students acquire critical and creative thinking skills as well as enhance their problem-solving skills through a breadth of study
across the humanities and arts, social studies, computational, biological sciences and physical sciences. In courses satisfying the Breadth requirement, students will:

- Articulate examples of significant contributions to human understanding achieved through various "ways of knowing" found in the arts and humanities; social and behavioral sciences; and computational, biological, and physical sciences
- Recognize and articulate the ways in which different disciplines approach questions that call upon different tools of inquiry, understanding, and creative enterprise
- Identify ways in which multiple tools of inquiry and understanding can be used to achieve greater insight into resolving "big" questions (e.g., climate change, poverty, global health etc.), evaluating the strengths and weaknesses of those approaches, and understanding which complementary approaches will help achieve meaningful change
- Evaluate different modes of inquiry across the humanities and arts; social studies; computational, biological, and physical sciences, and identify strengths and weaknesses of those approaches across disciplines when approaching a question

To achieve these outcomes, students are required to complete courses in the following areas.

- Natural Science, 4 to 6 credits, consisting of one 4- or 5-credit course with a laboratory component; or two courses providing a total of 6 credits
- Humanities/Literature/Arts, 6 credits
- Social Studies, 3 credits

This requirement challenges students to understand that there are many ways to research, understand, communicate about, and interpret creatively the world around us. These "ways of knowing" intersect and overlap, and the ideas presented in one area will often inform and transform what students know and how they think about the others. Students develop skills that help them make informed decisions in a wide range of political, economic, and social contexts, to think critically about the world, to better understand their own and others’ experience, and to behave in socially responsible ways. (For more information about how this exposure to breadth of inquiry and expression enriches students' undergraduate experience and complements intensive study in the major, please see the General Education Requirements [https://gened.wisc.edu/]) website.)

**Communication, 3 to 5/6 Credits**

The Communication requirement helps to ensure that all graduates of UW–Madison acquire essential communication and research-gathering skills necessary for success in university course work and beyond. Communication–A (Comm–A) and Communication–B (Comm–B) courses train students to gather and assess information from a variety of sources and to present different kinds of information, insight, and analysis to diverse audiences. These courses are essential for students’ career success and their preparation for public life in a rapidly changing world. While Comm–A courses focus exclusively on essential communication skills, Comm–B courses provide content instruction in a specific discipline and teach research, writing, and communication skills in conjunction with the course content. Comm–B courses are offered by departments across campus and vary widely in topic, content, and format.

**Learning Outcomes**

Students develop skills that enable them to be effective communicators in and out of the classroom. In courses satisfying the Communication requirement, students will:

- Make effective use of information retrieved, organized, and synthesized from appropriate sources
- Present ideas and information clearly and logically to achieve a specific purpose
- Make effective use of communicative forms appropriate to a specific discipline and adapted to the intended audience
- Use appropriate style and conventions associated with particular communicative forms, genres or disciplines

To achieve these outcomes, students must complete the following Communication requirements:

**Part A. Literacy Proficiency.**

2–3 credits at first-year level dedicated to reading, listening, and discussion, with emphasis on writing. While most incoming freshmen are required to complete coursework to fulfill this requirement, students may be exempted from Part A by approved college course work while in high school, AP test scores, or placement testing. Students are expected to satisfy this requirement by the end of their first year of undergraduate study.

**Learning Outcomes**

- Use the four modes of literacy: writing, speaking, reading, and listening to formulate strategies for critical thinking
- Use information-seeking skills to demonstrate the four modes of literacy

**Part B. Enhancing Literacy Proficiency.**

2–3 credits of more advanced coursework for students who have completed or been exempted from Part A. Students should consult with the appropriate undergraduate advisor about when this requirement should be completed. Courses that satisfy this requirement are offered in many fields of study; although a wide variety of courses fulfill this requirement, students are encouraged to select a course most in keeping with their interests or other requirements of their intended field(s) of study.

**Learning Outcomes**

- Identify and make skillful use of relevant, reliable, and high–quality research sources appropriate to the course subject and discipline
- Make productive use of the writing process, including brainstorming, outlining, drafting, incorporating feedback, and revising, to develop a fledgling idea into a formal paper, presentation, and/or project
- Share research, course content, or creative activity in writing and at least one other mode of communication relevant to the discipline.

Other modes of communication might include...
Quantitative Reasoning, 3 to 6 Credits
Quantitative Reasoning is the process of forming conclusions, judgments or inferences from quantitative information. The Quantitative Reasoning requirement at UW–Madison has two parts: Part A and B. Quantitative Reasoning A courses provide students with skills in mathematics, computer science, statistics or formal logic that are needed for dealing with quantitative information. The acquired skills are broad-based in order to have a positive impact on the readiness of students to take a Quantitative Reasoning B course in a variety of disciplines. Quantitative Reasoning B courses allow students to enhance their Quantitative Reasoning Proficiency in a more advanced setting, where they make significant use of quantitative tools in the context of other course material. To ensure timely completion of the undergraduate degree, students must demonstrate minimum math proficiency before they can enroll in a Quantitative Reasoning Part A course. They should complete Part A of the Quantitative Reasoning requirement by the end of their first year, and must complete Part A before they enroll in Part B.

Learning Outcomes
- Manipulate quantitative information to create models, and/or devise solutions to problems using multi-step arguments, based on and supported by quantitative information
- Evaluate models and arguments using quantitative information
- Express and interpret in context models, solutions, and/or arguments using verbal, numerical, graphical, algorithmic, computational or symbolic techniques

Quantitative Reasoning Part B Requirement:
Can be satisfied by taking a designated QR-B course of at least 3 credits in a variety of fields of study, which enhances students’ proficiency in this domain. Students are encouraged to select a course in keeping with their interests or to satisfy other requirements for their major or degree program.

Quantitative Reasoning Part A Requirement:
Can be satisfied by approved college work while in high school, AP test scores, placement testing, or taking a 3-credit course at UW–Madison with a Quantitative Reasoning A designation.

Identifying Courses That Meet General Education Requirements
The university offers hundreds of courses that meet the requirements described above. Students should consider their own interests and check with their advisor when deciding which courses to complete. Please note that many undergraduate programs of study have breadth requirements that go beyond these basic university-wide requirements.

The following language is used in the UW–Madison course listings to indicate how courses count toward satisfying the communication, quantitative reasoning, and ethnic studies portions of the General Education Requirements. Courses that satisfy these requirements are also tagged with a mortarboard (graduate cap) symbol.

- Communication Part A
- Communication Part B
- Ethnic Studies
General Education Policies

- Only undergraduate-level college courses may satisfy General Education Requirements.
- Directed or Individualized Study may not be used to satisfy General Education Requirements.
- Because these requirements assume that students are engaged in focused study within the designated area of general education, requirements cannot be met with portions of courses.
- Exemption from General Education: All students are required to meet the fundamental degree requirements of the university, which include general education.
- Disability-Based Waivers: The university has determined that waivers to the communication and quantitative reasoning portions of the general education component would fundamentally alter the nature of the University of Wisconsin–Madison degree. Students should not expect to obtain disability-based waivers to the communication and quantitative reasoning portions of the General Education Requirements.
- Pass/Fail: Effective fall 2012, all courses taken to meet the University Requirements.

Directed or Individualized Study may not be used to satisfy General Education Requirements. Only undergraduate-level college courses may satisfy General Education Requirements. Because these requirements assume that students are engaged in focused study within the designated area of general education, requirements cannot be met with portions of courses. Exemption from General Education: All students are required to meet the fundamental degree requirements of the university, which include general education. Disability-Based Waivers: The university has determined that waivers to the communication and quantitative reasoning portions of the general education component would fundamentally alter the nature of the University of Wisconsin–Madison degree. Students should not expect to obtain disability-based waivers to the communication and quantitative reasoning portions of the General Education Requirements. Pass/Fail: Effective fall 2012, all courses taken to meet the University Requirements.

GRADUATING

Declaration of Intent to Graduate

When students expect to graduate, they must indicate their intent by completing the graduation application available in the MyUW Student Center. It is the policy of UW–Madison that all work for the degree must be completed and all degree requirements satisfied before the degree can be conferred.

Conferral of Degrees

When students have been certified as having completed all university general education, degree, and major requirements, the degree will be awarded. When the degree is awarded, a diploma will be issued, listing the degree earned, and the transcript updated to reflect the degree, major, and any other approved academic programs completed. Students who have holds (https://kb.wisc.edu/helpdesk/page.php?id=4139) on their records will not receive their diplomas, or be able to order transcripts, until the holds are cleared.

Commencement

Students who wish to attend the spring or winter commencement ceremony must indicate their intent by completing the graduation application available via Student Center in My UW (https://login.wisc.edu/idp/profile/SAML2/Redirect/SSO?execution=e4s1) by the posted deadline (https://commencement.wisc.edu/graduate-checklist/). Students may participate in the commencement ceremony (https://commencement.wisc.edu/), in which the chancellor and deans symbolically confer the degrees, even if all degree requirements have not been completed. Neither participation in the ceremony nor listing in the program conveys degree conferral. Students will not receive the diploma or transcript notation until all degree requirements are certified as complete by their respective school or college. Should a student’s graduation plans change, updates to the intended term of graduation must be indicated via the graduation application in the MyUW Student Center.

ENROLLMENT AND RECORDS

The Office of the Registrar (https://registrar.wisc.edu/) is responsible for maintaining the academic records of students who attend the University of Wisconsin–Madison and for many services associated with these records, including enrollment and grading. The office is located at:

333 East Campus Mall #11101
Madison, WI 53715-1384
registrar@em.wisc.edu
608-262-3811

Many student services are available online in the Student Center on My UW–Madison (My UW) (https://login.wisc.edu/idp/profile/SAML2/Redirect/SSO?execution=e2s1), including viewing grades, ordering transcripts, and updating address and emergency contact information. Students are responsible for the accuracy of the addresses provided in My UW and for the courses selected when they enroll.

My UW is available to eligible students, who gain access by using their Net ID and password. Access to My UW–Madison is available from any device with Internet access. For further information about My UW–Madison, see DoIT (Division of Information Technology) (http://it.wisc.edu/).

ENROLLMENT

Students enroll for courses, obtain information about deadlines, view their class schedule, and more in the Course Search & Enroll (http://public.enroll.wisc.edu/) application on My UW (https://login.wisc.edu/idp/profile/SAML2/Redirect/SSO?execution=e3s1). Information about key deadlines and course enrollment are also available at the Office of the Registrar website (https://registrar.wisc.edu/). Additional assistance with the course enrollment process is available by calling 608-262-3811 or emailing registrar@em.wisc.edu.

GRADING SYSTEM

The general quality of a student’s work is expressed in terms of a grade point average (GPA). It is based on the total number of credits taken for which grades of A through F are received. Semester grades are reported by letter only; plus and minus signs are not authorized. The highest possible GPA is 4.0, representing A grades in every course; the lowest possible is 0.0. The following is the official scale of grades at UW–Madison.
### Grades with Associated Grade Points per Credit

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
<th>Points Per Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4</td>
</tr>
<tr>
<td>AB</td>
<td>Intermediate Grade</td>
<td>3.5</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3</td>
</tr>
<tr>
<td>BC</td>
<td>Intermediate Grade</td>
<td>2.5</td>
</tr>
<tr>
<td>C</td>
<td>Fair</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>Poor</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>Failure</td>
<td>0</td>
</tr>
</tbody>
</table>

Excluded from the GPA calculation are:

- S or U (Satisfactory or Unsatisfactory) in courses taken on the pass/fail basis.
- SD/UD (Satisfactory-Disruption/University Disruption-No Credit): special grading option for students in response to the COVID-19 events.
- Cr or N (Credit or No Credit) in courses offered on a credit/no credit basis.
- Def (Deferred), Ex (Excused), PE (Permanently Excused), formerly used only for required Physical Education. The Physical Education requirement was discontinued effective August 30, 1976.
- DR (Dropped), indicates the course was dropped.
- I (IN for Cr/N Courses) (Incomplete), a temporary grade used when work is not completed during a term.
- EI (Extended Incomplete), a temporary grade for an extended time limit to remove an Incomplete.
- PI (Permanent Incomplete), a permanent grade replacing an Incomplete incurred in a student’s last semester in residence and not removed within five years.
- NR (No Report), indicates that a grade was not submitted by the instructor. Has no net effect on GPA. Effective Summer 1999.
- NW (No Work)..."should be used for students who enroll in a course and then never attend. ‘No Work’ in this context means that the instructor has no evidence that the student ever attended, in that no course work was ever submitted. Any student who does attend for part of the semester, and then stops participating should be given a grade of ‘F’ unless there are grounds for assignment of a grade of ‘I’(Incomplete)." Fac. Doc. 1028; effective 9/94.
- P (Progress), a temporary grade used for courses extending beyond one term. The final grade determines the grade for each term and replaces P grades for the course.
- Q (Question on Credits or Honors), a temporary grade used during grade reporting to indicate a credit problem. Should only be used when the student is enrolled for the wrong number of credits or their honors indication is incorrect. A Q grade may be represented on a grade report as ‘?’.
- R (Registered), not used after the Summer 1974.
- W (Withdrawn), indicates the student withdrew from the University while enrolled in the course.

Audited courses, denoted as such by ‘AU’ in place of a number of credits, are graded either S (Satisfactory) or NR (No Report).

### CREDIT/NO CREDIT COURSES

Some courses are designated as being offered on a Credit/No Credit basis. The transcript for the course will indicate either CR, meaning the student earned the credits for which the course was offered, or N, meaning that the student did not earn any credit even though enrolled for the course. Students may not take such courses on any other basis.

### PASS/FAIL

#### Policy on Use of Pass/Fail Grading Option for Undergraduates

This policy concerns the use of the pass/fail grading option for degree-seeking undergraduate students. According to the UW–Madison grading scale, grades of S (satisfactory) and U (unsatisfactory) are the transcripted grades that are used for what is commonly known as pass/fail. It applies only to courses that use the default A–F grading scale and that also allow students to choose to take a course on a pass/fail (PF) basis. The instructor enters the letter grade earned by students on the grade roster, and those letter grades are subsequently recorded as a pass (S) or fail (U) on the student record. A pass (S) will be recorded when a letter grade of A through C is earned. A fail (U) will be recorded when a letter grade of D or F is earned. In addition to the S or U notation, the student transcript includes the symbol # for courses that were taken on a pass/fail basis. Neither the S nor the U is used in computing the grade point average. Instructors are not informed that a student has elected to take the course pass/fail.

#### Student Eligibility

Students must be in good academic standing according to their school/college in order to be eligible to request the pass/fail grading option.

Undergraduates may carry one course on a pass/fail basis per term and a maximum of 16 credits during their undergrad career. The summer sessions collectively count as a single term.

Required courses cannot be taken on a pass/fail basis. The student’s school or college may review the request to take a course pass/fail and reject requests for nonelective work. It may be difficult for the school or college official to determine whether a course is an elective or being used to fulfill a requirement since a student’s enrollment or the way a course is being used in the specific program of study may change. Ultimately it is the student’s responsibility to be sure that the requested course is an elective. Students are strongly advised to consult with an academic advisor before taking a course pass/fail. Courses taken on a pass/fail basis will not count for nonelective requirements even if they would normally count toward such requirements.

Each school or college is responsible for clearly communicating to its students what the definition of “good academic standing” is and what a free elective is.

In each school or college, the office responsible for academic policy exceptions is authorized to make exceptions to the pass/fail policy.

#### Process for Requesting the Pass/Fail Grading Option

Students indicate that they would like to have a course they are enrolled in graded on a pass/fail basis by completing a course change request via their Student Center (see Course (https://kb.wisc.edu/registrar/7700/) Change Request for detailed information). Students may submit pass/fail requests via their Student Center from the time that they
enroll until midnight on the Friday at the end of the fourth week of fall and spring semesters. (For modular and summer session courses, pass/fail requests must be submitted by midnight Friday of the week in which the session is one-fourth completed).

The deadline for requesting the pass/fail grading option is posted on the Office of the Registrar website (https://registrar.wisc.edu/dates/). These deadlines are based on the idea that the pass/fail option is intended to encourage students to explore educational opportunities that they might otherwise not be willing to attempt. Pass/Fail is not intended as a way for students to avoid academic consequences.

Once the student has submitted the request to take a course on a pass/fail basis the request is routed via Student Information System workflow to an academic dean in the school or college for approval or further communication with the student. The school/college official must approve the request before the grading option is changed to pass/fail by the Office of the Registrar.

Students can see whether a course is being graded on a pass/fail basis in the MyUW Student Center’s Academic Records > View Grades section.

1For study abroad programs operated by the College of Engineering, courses taken abroad toward an engineering major will be posted as pass/fail. This occurs automatically and is not a student option; this practice is not covered or affected by this policy.

FAILURES
Every course grade of F counts as 0 grade points and remains permanently on the transcript. If the course is repeated, the original F will remain on the transcript and will be included in computing the GPA.

INCOMPLETES
An Incomplete may be reported for a student who has carried a subject with a passing grade until near the end of the semester. If a student is unable to take or complete the final examination because of illness or other circumstances beyond his or her control, the student may be granted an Incomplete. An Incomplete is not given to a student who stays away from a final examination except as indicated above. In the absence of such proof the grade shall be F; even with such proof, if the instructor is convinced that the student cannot pass, the grade shall be F.

Undergraduate students enrolled in the College of Letters & Science must complete the course work for which they received the Incomplete by the end of the fourth week of classes of their next term of enrollment at UW-Madison (exclusive of summer sessions). Failure to do so will result in a lapse into a grade of F, unless the time limit has been formally extended. Letters & Science students should see the L&S section on Incompletes (http://guide.wisc.edu/undergraduate/letters-science/#Incompletes) for important details.

Undergraduates enrolled in schools or colleges other than Letters & Science must complete the course work for which they received the Incomplete by the end of their next term of enrollment (exclusive of summer sessions). Incompletes incurred in the last term of enrollment may not be removed after five years of absence from the university without special advance permission of the student’s associate or assistant dean. Such Incompletes remain on the record permanently but do not lapse into a grade of F.

AUDIT
Students may audit eligible courses with instructor and academic dean consent, and if no laboratory or performance skills are involved. Auditors may not recite or take examinations but are expected to attend classes regularly and do some assigned work. Although courses for which students enroll as an auditor are factored into tuition, such courses do not earn academic credit and do not count in determining full-time/part-time load for enrollment certification in an academic term. Students initiate a request to audit by completing a course change request via their MyUW Student Center (see Course Change Request (https://kb.wisc.edu/registrar/7700/) for detailed information). Students may submit audit requests via their Student Center from the time that they enroll until midnight on the Friday at the end of the fourth week of fall and spring semesters. (For modular and summer session courses, audit requests must be submitted by midnight Friday of the week in which the session is one-fourth completed). School and college policies may vary from this description. Students are advised to consult with the instructor concerning specific course requirements that must be satisfied.

CLASS STANDING
Students are classified by year according to the number of credits they have earned:

Freshman: fewer than 24 credits
Sophomore: 24-53 credits
Junior: 54-85 credits
Senior: 86 or more credits

TUITION AND FEES
The UW System Board of Regents sets tuition and fee rates annually. Rates are subject to change without notice.

The tuition and fee schedule is available on the Bursar’s Office website (https://bursar.wisc.edu/tuition-and-fees/). Students who enroll after the first Friday of the official first week of classes are assessed a late initial enrollment fee. Exception: Special and Guest students have until the Friday of the second week of classes to enroll.

Enrolled students can view account charges/payments, financial aid (loans, grants, scholarships) received, and refunds on their My UW (https://login.wisc.edu/idp/profile/SAML2/Redirect/SSO/?execution=e5s1) Student Center, Financial Account. Students can also access links to view and pay student account eBills, set up Authorized Payers for account access, and enroll for eRefund.

The Bursar’s Office provides the student account bill electronically (eBill). The eBill is published on the My UW (https://login.wisc.edu/idp/profile/SAML2/Redirect/SSO/?execution=e5s1) Student Center payment portal. Students and their Authorized Payers receive an email when the eBill is available to view.

For questions about tuition rates, student account activity and billing questions, contact the Bursar’s Office.
tuition@bussvc.wisc.edu (include student ID and name)
608-262-3611
333 East Campus Mall #10501
Madison, WI 53715-1383

Making Payments
Student Account payment options include making an online ePayment, mailing a check to the Bursar’s Office, or placing a check in the first-floor lobby dropbox. For detailed payment information, see Payment Methods (https://bursar.wisc.edu/student-tuition-account/payment-methods/) on the Bursar’s Office website.
If the balance is not paid by the due date, a late fee is assessed and a hold is placed to prevent future enrollment and release of official transcripts and diplomas, until the account is paid.

**RESIDENCE FOR TUITION PURPOSES**

At the University of Wisconsin-Madison, residence for tuition determinations are governed by Wisconsin Statutes 36.27(2). The standards to qualify as a Wisconsin resident are unique to this law and may differ from standards used to determine residency for other purposes, such as voting, paying taxes, obtaining licensures, and other forms of residency. In general, eligibility for resident status requires that an independent student (or the student’s parent, if the student is a dependent) must demonstrate bona fide residency in Wisconsin for at least twelve months immediately prior to enrollment for any term. However, the law also states that individuals who come to Wisconsin primarily for educational purposes do not qualify as Wisconsin residents for tuition purposes, even if they meet the remaining eligibility criteria. As a result, students who begin their enrollment as nonresidents usually maintain nonresident status for the duration of their enrollment.

While all individuals who do not demonstrate eligibility under Wisconsin Statutes 36.27(2) will be classified as nonresidents, the law does provide a limited set of exceptions to twelve-month period normally required to establish bona fide residency. These exceptions pertain to some (but not all) individuals who are refugees in Wisconsin, who have certain military or veteran statuses, or who have relocated to Wisconsin for full-time, permanent employment under certain conditions. If you have questions about whether your circumstances might align with the exemptions noted here, you may wish to contact a residence specialist to discuss your residency further.

For more information and the full text of Wisconsin Statutes, Section 36.27(2), see the Office of the Registrar website (https://registrar.wisc.edu/residency/) or contact a residence specialist at 608-262-1355 or ResidenceForTuition@registrar.wisc.edu.

Nonresident students who plan to use federal veteran benefits such as the post-9/11 GI Bill may be eligible for resident tuition rates even though they are formally classified as nonresidents of Wisconsin. If you plan to use veteran benefits while enrolled at UW-Madison, you may wish to speak with University Veterans Services at 608-265-4628 or veterans@wisc.edu for more information about how to use your military benefits at the University.

**MINNESOTA RECIPROCITY FOR TUITION RATES**

Minnesota residents who are certified by the Minnesota Office of Higher Education for the appropriate term to attend UW–Madison under the Minnesota–Wisconsin Tuition Reciprocity Agreement will be assessed the approved reciprocity tuition rate, plus the segregated fees assessed all UW–Madison students. Students under this program will be classified as nonresidents of Wisconsin. Minnesota residents must apply to the Minnesota Office of Higher Education for verification of their eligibility for reciprocity.

It is the student’s responsibility to inquire about application procedures, deadline dates, and reapplication procedures. Students may apply online on the Minnesota Office of Higher Education website (http://www.ohe.state.mn.us/). Questions may be directed to the Minnesota Office of Higher Education:

1450 Energy Park Drive, Suite 350
St. Paul, MN 55108-5227

They may also be directed to the UW–Madison Office of the Registrar (https://registrar.wisc.edu/):
333 East Campus Mall #11101
Madison, WI 53715-1384
registrar@em.wisc.edu
608-262-3811

**RULES, RIGHTS, AND RESPONSIBILITIES**

**STUDENT PRIVACY RIGHTS (FERPA)**

Students have the right to inspect and review most education records maintained about them by the University of Wisconsin–Madison and, in many cases, decide if a third person can obtain information from them. Students may challenge information in their records which they believe to be inaccurate, misleading, or inappropriate.

The university has adopted a policy statement implementing all provisions of the Family Educational Rights and Privacy Act (FERPA). A copy of this statement may be obtained at the Office of the Registrar (https://registrar.wisc.edu/), 333 East Campus Mall #11101. The university, in accordance with the act, has designated the following as “directory information,” which is publicly available unless a student asks to have any or all of it withheld: name; postal address; telephone numbers; e-mail addresses; date of birth; major field(s) of study; number of academic credits earned toward degree; attendance status (including current year, credit load, and full- or part-time status); dates of attendance (matriculation and withdrawal dates); degrees and awards received (type of degree and date granted); previously attended educational agencies or institutions; participation in officially recognized activities; and participation in athletics and weight and height of athletes.

Students wishing to keep some or all of their “directory information” confidential should restrict their information in the Student Center in My UW (https://login.wisc.edu/idp/profile/SAML2/Redirect/SSO/?execution=e6s1). Students with questions about the provisions of the act or who believe the university is not complying with the act may obtain assistance from the Office of the Registrar:
333 East Campus Mall #11101
Madison, WI 53715-1384
reginfo@em.wisc.edu
608-262-3811

Students have the right to file complaints alleging university noncompliance with the act with the federal agency that enforces the act. The address is: The Family Educational Rights and Privacy Act (http://www2.ed.gov/policy/gen/guid/fpco/ferpa/) Office, Department of Education, 330 Independence Avenue SW, Washington, DC 20201.

Information about the Family Educational Rights and Privacy Act of 1974, as amended, is distributed during Wisconsin Welcome and is available at:
Office of the Registrar (https://registrar.wisc.edu/)
333 East Campus Mall #11101
Madison, WI 53715-1384
AVAILABILITY OF ACADEMIC RECORD INFORMATION TO PARENTS OR GUARDIANS OR OTHERS

A student may authorize a third party (e.g., a parent, guardian, spouse, potential employer, etc.) access to academic record information. An authorization form is available at the Office of the Registrar’s website, or by visiting the Office of the Registrar (https://registrar.wisc.edu/), 333 East Campus Mall #11101. The authorization form permits release of specified information on a one-time basis to the specified third party. If no authorization is on file, it will be assumed that the student does not wish to give a third party access to academic record information. This policy is designed to give students specific control over the parties to whom academic record information may be released.

Grade reports will not be sent by the university to parents or guardians. Students are urged to keep their parents informed of their academic progress.

ACADEMIC INTEGRITY

UW–Madison students are required to conduct their academic work with integrity. Students have due process rights if they are accused of academic misconduct. It is important students:

- be familiar with the rules of academic misconduct (UWS Ch. 14);
- ask their instructors if they are unsure (for example, using sources in a paper or if collaboration with another student is permitted);
- tell your instructors if they see misconduct;
- don’t help someone else cheat, it is a violation of the rules.

The complete rules and procedures regarding academic integrity, is found in UWS Ch. 14 (https://docs.legis.wisconsin.gov/code/admin_code/uws/14/). Additional information is on the Office of Student Conduct and Community Standards website (https://conduct.students.wisc.edu/academic-misconduct/) or contact the office via phone at 608-263-5701 or conduct@studentaffairs.wisc.edu.

STUDENT RIGHTS AND RESPONSIBILITIES

Every member of the University of Wisconsin–Madison community has the right to conduct their academic and social life in an environment free from threats, danger, or harassment. Students are also responsible for conducting themselves in a manner compatible with membership in the university and local communities.

UWS Chapters 17 and 18 of the Wisconsin Administrative Code list the university policies students are expected to follow and describes the procedures used when students are accused of misconduct, including possible outcomes. Review the complete text of UWS Chapter 17 (https://docs.legis.wisconsin.gov/code/admin_code/uws/17/); and additional information is on the Office of Student Conduct and Community Standards website (https://conduct.students.wisc.edu/academic-misconduct/), or contact the office via phone at 608-263-5701 or conduct@studentaffairs.wisc.edu.

STUDENT GRIEVANCE PROCEDURE

Any student at UW–Madison who feels that they have been treated unfairly has the right to voice a complaint and receive a prompt hearing of the grievance. The basis for a grievance can range from something as subtle as miscommunication to the extreme of harassment.

Each school or college has a procedure to hear grievances. Generally the process involves an informal attempt to solve the problem, if appropriate. If not, more formal proceedings can be undertaken until a resolution is reached. Advisors and school or college offices have detailed information. For assistance in determining options, students can contact the drop-in staff member within the Office of Student Assistance and Support at 608-263-5700, within Bascom Hall, Room 70, Monday–Friday, 8:30 a.m.–4 p.m.

SEEKING ASSISTANCE

The Office of Student Assistance and Support (https://osas.wisc.edu/) assists students with matters outside of the classroom. They assist with a variety of concerns and connecting students with resources on campus. A great place to start when you don’t know where to go.

If you need personal assistance or resources, staff members in the Office of Student Assistance and Support are available on a drop-in basis, Monday–Friday. Reach out if you are dealing with a financial crisis, sudden health issues, housing/food insecurity, or other sensitive situations.

A student can seek help at many places on campus, for both personal and academic problems. For answers to general questions on many topics, a good place to start is Ask Bucky (https://info.wisc.edu/ask-bucky/), which is an excellent general referral service.

For personal concerns, Mental Health Services, a unit of University Health Services (http://www.uhs.wisc.edu/), offers individual, group and couple counseling services. Experienced counselors, psychologists, and psychiatrists can assist students in addressing depression and managing anxiety, and in developing self-awareness and understanding, independence, and self-direction. Our experienced staff is committed to understanding and respecting every individual. Mental Health Services is located at 333 East Campus Mall, 608-265-5600. In addition, an on-call dean in Student Assistance and Judicial Affairs is usually available by telephone (608-263-5700) or on a drop-in basis (75 Bascom Hall) Monday–Friday, 8:30 a.m.–4:30 p.m. UHS also offers students at 24/7 crisis line for mental health support. 608-265-5600 (option 9).

For academic problems, many places can offer help. The student should first discuss the problem with the professor or TA. If the problem is not resolved at that time, the student can speak with an academic advisor or the chair of the department. If further assistance is needed, the student should contact one of the academic deans in the school or college.

STUDENT AFFAIRS

STUDENT AFFAIRS

Student Affairs at UW–Madison (https://students.wisc.edu) serves students in areas including health and well-being, identity and inclusion, leadership and engagement, and student advocacy. Its multiple departments collaborate broadly across the many programs and campus units that serve students, such as the Division of Diversity, Equity and Educational Achievement (https://diversity.wisc.edu/), International Student Services (https://iss.wisc.edu), and University Housing (https://www.housing.wisc.edu/), to enhance UW–Madison as a welcoming and inclusive community for all students.

Web: msc.wisc.edu (http://msc.wisc.edu/)
Facebook: UW–Madison Multicultural Student Center (https://www.facebook.com/UWMulticultural/)
Instagram: @UWMulticultural (https://twitter.com/@UWMulticultural/)

• Provides spaces, services, and events for students of color to find community and belonging
• Celebrates and honors heritage and history through monthly recognitions including Latina/x Heritage Month, Native November, Black History Month, and APIDA Heritage month
• Organizes ‘MCOR’ and ‘The Meet Up,’ welcome week events featuring cultural performances and multicultural student organizations
• Develops leadership development opportunities for student leaders through the Multicultural Leadership Summit, and student organization affiliation program in which more than 65 multicultural organizations are recognized
• Provides opportunities for students of all backgrounds to engage in conversations and dialogue around racial justice and intersectional communities and issues
• The MSC includes the Black Cultural Center, APIDA (Asian Pacific Islander Desi American) Student Center, Indigenous Student Center, and Latinx Cultural Center. Each identity center hosts events including new student welcomes and graduation celebrations

OFFICE OF FRATERNITY & SORORITY LIFE
University Club – 432 East Campus Mall
Phone: 608-265-9019
Email: advisor@greeklife.wisc.edu
Web: https://www.fsl.wisc.edu
Facebook: https://www.facebook.com/FSL.UWMadison (https://www.facebook.com/FSL.UWMadison/)

• Advises more than 40 student leaders who serve in council and community leadership roles
• Provides coaching to 60+ fraternities and sororities
• Plans and implements programming to support the development of members in multiple areas, such as leadership, social justice, and harm prevention
• Reinforces expectations of the fraternal experience and supports a variety of accountability processes.

OFFICE OF INCLUSION EDUCATION
Office of Inclusion Education
716 Langdon Street, Office #123
Email: inclusioneducation@studentaffairs.wisc.edu
Web: http://inclusioneducation.wisc.edu
Instagram: https://www.instagram.com/our_wisconsin/

The Office of Inclusion Education elevates and prioritizes diversity, equity, and inclusion for all students at UW-Madison. The Office of Inclusion Education includes:

• Our Wisconsin is an educational program that encourages students to contribute to an inclusive campus community and celebrate each other’s backgrounds and identities. Our Wisconsin consists of an online training and additional in-person programming. All incoming first-year and transfer students are required to participate in the online component of Our Wisconsin.

• Social Justice Education Programs develops resources and facilitates workshops and trainings to support self-exploration, critical dialogue, and the capacity to build just and inclusive communities. Signature programming also includes an annual Social Justice Leadership Retreat (SJLR)

• The Social Justice Hub connects UW-Madison students to social justice-related initiatives on campus and in the Madison community. The Hub provides space and resources for students to engage in action teams focused on criminal justice reform, housing equity, and food justice.

OFFICE OF STUDENT CONDUCT AND COMMUNITY STANDARDS
724 West Johnson
608-263-5701
Email: conduct@studentaffairs.wisc.edu
Web: conduct.students.wisc.edu (https://www.conduct.students.wisc.edu)

• Upholds every student’s right to learn in a safe community
• Fosters integrity and accountability
• Challenges and supports students to reflect, integrate and act on their Wisconsin Experience
• Partners with instructors to resolve academic misconduct
